CGM Mutual Fund

92nd Annual Report December 31, 2021

A No-Load Fund

MAR21 Printed in U.S.A.

To Our Shareholders:

CGM Mutual Fund increased 1.4% during the fourth quarter of 2021, compared to the Standard and Poor's 500 Index (S&P 500 Index) which increased 11.0% and the ICE BofAML U.S. Corporate, Government and Mortgage Index* which returned 0.1% over the same period. For the twelve months ended December 31, 2021, CGM Mutual Fund increased 25.1%, the S&P 500 Index increased 28.7% and the ICE BofAML U.S. Corporate, Government and Mortgage Index returned -1.6%.

The Year in Review and Economic Outlook

The market enjoyed a strong start to the year on signs of economic recovery including expanding orders for new goods and growing U.S. manufacturing activity. The passage of a \$900 billion economic stimulus package in December 2020 along with rising government bond yields suggested an upward inflationary trend which hurt the technology sector but boosted banks, energy companies and other cyclical stocks. As COVID-19 vaccine production accelerated, states began to reduce or lift pandemic restrictions, fostering growth in economic activity. Rising vaccination rates lifted employment numbers, especially in the service sector which had lagged earlier in the economic recovery. By early March, the Institute For Supply Management reported that the U.S. service sector experienced solid expansion through the first two months of the year. An additional \$1.9 trillion virus relief program passed in March provided more stimulus to the economy with \$1,400 payments to most Americans, funding for vaccine distribution, schools and local governments and a one-year extension of unemployment aid and the child tax credit. By the end of the first quarter, improving economic conditions and rising consumer confidence added further momentum to the market.

By April 1, the S&P 500 closed above 4,000 for the first time. The economy continued to rebound as the Commerce Department reported a 21.1% surge in household income in March which helped drive a 4.2% increase in consumer spending and a 9.8% jump in retail sales. Stocks temporarily pulled back on indications from Treasury Secretary Janet Yellen and later from the Federal Reserve that interest rates may need to increase earlier than previously anticipated to keep inflation in check. The Fed

subsequently clarified that it still regarded the inflationary environment as temporary and its quantitative easing program would continue until the economy experienced sustained 2% inflation and further strength in the job market. Emerging inflationary indicators including shipping disruptions, expanding consumer demand, labor shortages and rising commodities prices briefly weighed on stocks throughout the quarter. While the pace of the labor recovery moderated, it continued to improve and reports of weekly jobless claims in June remained down significantly from the beginning of the year. The positive employment data was enough to lift both growth and value stocks and propel the S&P 500 to close the first half of the year at a record high.

In early July, the Labor Department reported the addition of 850,000 new jobs in June along with rising hourly wages. The news temporarily led stocks higher, particularly in the growth sector which often outperforms the market when bond yields are low. But inflation concerns continued to proliferate and weigh on the market. Strengthening demand in the travel, entertainment and recreation industries and stimulus dollars streaming into the economy all contributed to upward inflationary pressure. Stocks rallied on the news that second guarter GDP expanded 6.7%, driving the U.S. economy above its size before the start of the pandemic. The emergence of the COVID-19 Delta variant in August reintroduced the threat of travel and social restrictions in parts of the country, cutting into spending on leisure and travel and depressing retailers and other cyclical stocks. Indications from the Fed that it may begin reversing its economic stimulus program before the end of the year sent bond yields higher. Technology and growth stocks pulled back in response and brought the S&P 500 down 4.8% for the month of September.

The market rebounded early in the fourth quarter in response to surprisingly strong corporate earnings results, particularly from banks, healthcare companies and manufacturers. Stocks subsequently slumped in response to the discovery of the fast-spreading and highly transmissible Omicron COVID-19 variant but soon recovered on the belief that the impact on the economic recovery would be limited as cases generally appeared to be milder. The Fed began the termination of its pandemic

stimulus by gradually tapering its asset purchase program and Chairman Jerome Powell subsequently indicated that the Fed's plan may need to accelerate to provide the flexibility to raise interest rates in early 2022 to combat climbing inflation. The Fed's concerns were supported by the Labor Department's report that the Consumer Price Index increased 6.8% in November from a year ago, its fastest pace since 1982. Additionally, the Producer Price Index, which measures changes in prices charged by suppliers and businesses, recorded its largest gain ever, jumping 9.6% for the trailing twelve months in November. At year-end, continuing strength in the iobs market and advancements in COVID-19 treatments and vaccines contributed to market optimism that the global economic recovery would continue into the new year.

Portfolio Strategy

CGM Mutual Fund was approximately 75% invested in stocks throughout 2021 in anticipation of recovery from the brief COVID-19 induced recession of 2020 and 25% invested in short term U.S. Treasury securities in anticipation of higher interest rates. Unprecedented monetary and fiscal stimulus supported a strong recovery throughout the year. The Fund had significant positions in retailers, banks and healthcare providers during the year. The largest gains were in retailers, automobile dealers and vehicle rental. The Fund had small losses in software and oil services.

On December 31, 2021, CGM Mutual Fund was 28.8% invested in short term U.S. Treasury securities. The equity portion of the portfolio was 15.2% invested in oil-independent production, 11.3% invested in retail and 5.9% invested in consumer staples. The Fund's three largest equity holdings were Signet Jewelers Limited (retail), CVS Health Corporation (consumer staples) and Prudential Financial. Inc. (insurance).

Average Annual Total Returns through December 31, 2021

	1 Year	5 Year	10 Year
CGM Mutual Fund	25.1%	6.9%	8.1%
S&P 500 Index	28.7%	18.5%	16.6%
ICE BofAML U.S. Corporate, Government & Mortgage Index	-1.6%	3.6%	3.0%

Past performance is no indication of future results and current performance may be higher or lower than the figures shown. Unlike a fund, an index is not managed and does not reflect fees and expenses.

CGM MUTUAL FUND

Portfolio Manager

G. Kenneth Heebner has managed CGM Mutual Fund since 1981. In 1990, Mr. Heebner founded Capital Growth Management Limited Partnership ("CGM") with Robert L. Kemp. Prior to establishing CGM, Mr. Heebner was at Loomis, Sayles & Company where he managed the Fund, then known as Loomis Sayles Mutual Fund. In addition to CGM Mutual Fund, he currently manages CGM Realty Fund and CGM Focus Fund.

INVESTMENT PERFORMANCE

(unaudited)

Cumulative Total Returns for Periods Ended December 31, 2021

	CGM Mutual Fund (%)
10 Years	+ 116.9
5 Years	+ 39.8
1 Year	+ 25.1
3 Months	+ 1.4

The performance data contained in the report represent past performance, which is no guarantee of future results. The graph and table above do not reflect the deduction of taxes a shareholder would pay on Fund distributions or the redemption of Fund shares and assumes the reinvestment of all Fund distributions.

The investment return and the principal value of an investment in the Fund will fluctuate so that investors' shares, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance data quoted.

FINANCIAL HIGHLIGHTS

	For the Year Ended December 31,					
	2021	2020	2019	2018	2017	
For a share of the Fund outstanding throughout each period:						
Net asset value at beginning of period	\$ 29.01	\$26.81	\$26.54	\$31.02	\$30.76	
Net investment income (a)	0.47	(b) 0.02	0.27	(c) 0.25	(d) 0.13	
Net realized and unrealized gains (losses) on investments and foreign currency transactions	6.82	2.20	0.27	(4.48)	5.13	
Total from investment operations	7.29	2.22	0.54	(4.23)	5.26	
Dividends from net investment income	(0.49)	(0.02)	(0.27) (0.25)	(0.13)	
Distributions from net short-term realized gains	(7.30)	_	_	_	(4.33)	
Distributions from net long-term realized gains					(0.54)	
Total distributions	(7.79)	(0.02)	(0.27	(0.25)	(5.00)	
Net increase (decrease) in net asset value	(0.50)	2.20	0.27	(4.48)	0.26	
Net asset value at end of period	\$ 28.51	\$29.01	\$26.81	\$26.54	\$31.02	
Total return (%)	25.1	8.3	2.1	(13.7)	17.1	
Ratios:						
Net operating expenses after waiver (%)*	1.16	(e) 1.19	(e) 1.22	1.15	1.15	
Total operating expenses before waiver (%)*	1.19	(e) 1.26	(e) 1.22	1.15	1.15	
Net investment income (%)*	1.36	(b) 0.09	0.97	(c) 0.82	(d) 0.38	
Portfolio turnover (%)	657	686	(f) 442	362	423	
Net assets at end of period (in thousands) (\$)	315,885	283,254	295,720	325,037	415,584	

- (a) Per share net investment income has been calculated using the average shares outstanding during the period.
- (b) Net Investment income per share reflects non-recurring dividends which amounted to \$0.30 per share. Excluding these non-recurring dividends, the ratio of net investment income to average net assets would have been 0.48%.
- (c) Net Investment income per share reflects non-recurring dividends which amounted to \$0.05 per share. Excluding these non-recurring dividends, the ratio of net investment income to average net assets would have been 0.77%.
- (d) Net Investment income per share reflects non-recurring dividends which amounted to \$0.08 per share. Excluding these non-recurring dividends, the ratio of net investment income to average net assets would have been 0.56%.
- (e) The effective dates of the expense waiver were May 1, 2020 through April 30, 2021.
- (f) The increase in the turnover ratio from prior year was due to the decrease in the average market value and an increase in trading activity.
- * Calculated based on average net assets.

NOTES TO FINANCIAL STATEMENTS — December 31, 2021

- 1. Organization CGM Mutual Fund (the "Fund") is a diversified series of CGM Trust (the "Trust") which is organized as a Massachusetts business trust under the laws of Massachusetts pursuant to an Agreement and Declaration of Trust. The Trust is registered under the Investment Company Act of 1940 as an open-end management investment company and is following accounting and reporting guidance in the Financial Accounting Standards Board's ("FASB") Topic 946 "Financial Services—Investment Companies". The Trust has two other funds whose financial statements are not presented herein. The Fund commenced operations on November 5, 1929. The Fund's objective is reasonable long-term capital appreciation with a prudent approach to protection of capital from undue risks. Current income is a consideration in the selection of the Fund's portfolio securities, but it is not a controlling factor.
- 2. Significant accounting policies Management has evaluated the events and transactions from December 31, 2021 through the date of issuance of the Fund's financial statements. For the Fund, there were no material subsequent events that required disclosure in the financial statements or footnotes.
- A. Security valuation Equity securities are valued on the basis of valuations furnished by a pricing service, authorized by the Board of Trustees (the "Board"). Equity securities listed or regularly traded on a securities exchange or in the over-the-counter ("OTC") market are valued at the last quoted sale price or, for certain markets, the official closing price at the time the valuations are made. A security that is listed or traded on more than one exchange is valued at the quotation on the exchange determined to be the primary market for such security. For securities with no sale reported, the last reported bid price is used. Corporate debt securities are valued on the basis of valuations furnished by a pricing service, authorized by the Board, which determines valuations for normal, institutional-size trading units of such securities using market information, transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders. United States government debt securities are valued at the current closing bid, as last reported by a pricing service approved by the Board.

When current market prices or quotations are not readily available or do not accurately reflect fair value, valuations may be determined in accordance with procedures adopted by the Board. For example, when developments occur between the close of a market and the close of the New York Stock Exchange ("NYSE") that may materially affect the value of some or all of the securities, or when trading in a security is halted, these procedures may be used. The frequency with which these procedures are used is unpredictable. These valuation procedures may result in a change to a particular security's assigned level within the fair value hierarchy described below. The value of securities used for net asset value ("NAV") calculation under these procedures may differ from published prices for the same securities.

The Fund may use valuation techniques consistent with the market, income, and cost approach to measure fair value. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The income approach uses valuation techniques to convert future amounts (cash flows, earnings) to a single present amount. The cost approach is based on the amount that currently would be required to replace the service capacity of an asset. To increase consistency and comparability in fair value measurements and related disclosure, the Fund utilizes a fair value hierarchy which prioritizes the various inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 Prices determined using: quoted prices in active markets for identical securities that the Fund has
 the ability to access at the measurement date. Valuation adjustments are not applied to Level 1 investments.
- Level 2 Prices determined using: other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment spreads, credit risk, etc.).
- Level 3 Prices determined using: significant unobservable inputs, including the Fund's own assumptions and judgment in determining the fair value of investments. In situations where quoted prices or observable inputs

NOTES TO FINANCIAL STATEMENTS (continued)

are unavailable (for example, when there is little or no market activity for an investment at the end of the period), unobservable inputs may be used. Unobservable inputs reflect the Fund's own assumptions about the factors market participants would use in pricing an investment, and would be based on the best information available in the circumstances. Investments falling into the Level 3 category are primarily supported by quoted prices from brokers and dealers participating in the market for those investments. However, these may be classified as Level 3 investments due to lack of market transparency and corroboration to support these quoted prices. Additionally, valuation models may be used as the pricing source for any remaining investments classified as Level 3. These models rely on one or more significant unobservable inputs and/or significant assumptions by Capital Growth Management Limited Partnership, the Fund's investment adviser ("CGM"). Inputs used in valuations may include, but are not limited to, financial statement analysis, capital account balances, discount rates and estimated cash flows, and comparable company data.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following is a summary of the inputs used to value the Fund's investments as of December 31, 2021:

	Valuation Inputs				
Classification		Level 1 - Quoted Prices		evel 2 - Other Significant Observable Inputs	Level 3 - Significant Unobservable Inputs
Investments in Securities-Assets					
Common Stocks*	\$	220,363,414		_	_
Bonds United States Treasury Notes		_	\$	91,102,981	_
Total	\$	220,363,414	\$	91,102,981	_

- * All common stocks held in the Fund are Level 1 securities. For a detailed break-out of common stocks by major industry classification, please refer to the Schedule of Investments.
- B. Security transactions and related investment income Security transactions are accounted for on the trade date plus one basis for daily NAV calculations. However, for financial reporting purposes, investment transactions are reported on the trade date (date the order to buy or sell is executed). Dividend income is recorded on the exdividend date net of applicable foreign taxes and fees, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries as applicable based upon its current interpretations of the tax rules and regulations that exist in the markets in which it invests. Interest income is recorded on an accrual basis and includes amortization of premium and discount. Net gain or loss on securities sold is determined on the identified cost basis and may include proceeds from litigation. Dividend payments received by the Fund from its investment in real estate investment trusts ("REITs") may consist of ordinary income, capital gains, and return of capital and as such are recorded as dividend income, capital gains or a reduction to security cost, as appropriate. Distributions from publicly traded partnerships are generally recorded based on the characterization reported on the Fund's schedule K-1 received from the partnership. Non-cash dividend payments, if any, are recorded at the fair market value of the securities received.
- **C.** Federal income taxes It is the Fund's policy to comply with the requirements of the Internal Revenue Code ("IRC") applicable to regulated investment companies, and to distribute to its shareholders all of its taxable income and net realized capital gains, within the prescribed time period.

NOTES TO FINANCIAL STATEMENTS (continued)

Capital accounts within the financial statements are adjusted for permanent book/tax differences. These adjustments have no impact on the Fund's net assets or results of operations. Temporary book/tax differences, if any, will reverse in a subsequent period. Any difference between book basis and tax basis unrealized appreciation is attributable primarily to the temporary book/tax difference of tax deferral of losses on wash sales.

As of December 31, 2021, the components of distributable earnings on a tax basis were as follows:

Undistributed	Undistributed	Net Unrealized
Ordinary	Long-term Capital	Appreciation/
Income	Gains	(Depreciation)
_	_	\$7.957.693

The identified cost of investments in securities owned by the Fund for federal income tax purposes, and their respective gross unrealized appreciation and depreciation at December 31, 2021 was as follows:

Gross Unrealized Identified Cost Appreciation		Gross Unrealized Depreciation	Net Unrealized Appreciation	
\$303,508,702	\$10,845,816	\$(2,888,123)	\$7,957,693	

The Fund is permitted to carry forward capital losses for an unlimited period, and such losses, when carried forward, retain their character as either short-term or long-term capital losses. As of December 31, 2021, the capital loss carryforwards utilized and the accumulated net realized loss on sales of investments for federal income tax purposes which are available to offset future taxable gains, prior to distributing such gains to shareholders, are shown in the table below:

Short-term Capital Loss Carryforward Utilized	Long-term Capital Loss Carryforward Utilized	Total	Remaining Short-term Capital Loss Carryforward	Remaining Long-term Capital Loss Carryforward	Total
\$13,510,135		\$13.510.135	_	_	_

Management has concluded that there are no significant uncertain tax positions for the open tax years as of December 31, 2021 that would require recognition in the financial statements. However, management's conclusion may be subject to review and adjustment at a later date based on factors including, but not limited to, new tax laws, regulations, and administrative interpretations (including relevant court decisions). Generally, the Fund's federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

Dividends and distributions to shareholders — Dividends and distributions are recorded by the Fund on the exdividend date. The classification of income and capital gains distributions is determined in accordance with income tax regulations. Distributions from net investment income and short-term capital gains are treated as ordinary income for income tax purposes. Permanent book/tax differences relating to shareholder distributions may result in reclassifications to paid-in capital or accumulated realized gain/(loss). The Fund also may utilize earnings and profits distributed to shareholders on redemption of shares as a part of the dividend deduction for income tax purposes. Undistributed net investment income or accumulated net investment loss may include temporary book/tax differences such as tax deferral of losses on wash sales, which will reverse in a subsequent period. Any taxable income or gain remaining at fiscal year end is distributed in the following year.

NOTES TO FINANCIAL STATEMENTS (continued)

The tax characterization of distributions is determined on an annual basis. The tax character of distributions paid during the periods ended December 31, 2021 and 2020 were as follows:

Ordinary Year Income		Long-term Capital Gains	Total		
2021	\$	69,184,278		\$ 69,184,278	
2020	\$	210,325	_	\$ 210,325	

- E. Guarantees and indemnifications Under the Trust's organizational documents, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties for the Fund. Additionally, in the normal course of business, the Fund may enter into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss from such claims is considered remote.
- F. Foreign currency translation All assets and liabilities initially expressed in terms of foreign currencies are translated into U.S. dollars each day at the prevailing exchange rate. Transactions affecting Statement of Operations accounts and net realized gain or loss on investments are translated at the rates prevailing at the dates of the transactions. The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments. Reported net realized foreign exchange gains or losses arise from sales of foreign currency, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains or losses arise from changes in the value of assets and liabilities other than investments in securities at the end of the period, resulting from changes in the exchange rate.
- G. Repurchase agreements The Fund enters into repurchase agreements, under the terms of a Master Repurchase Agreement, secured by U.S. Government or Agency securities, which involve the purchase of securities from a counterparty with a simultaneous commitment to resell the securities at an agreed upon date and price. Certain repurchase agreements are tri-party arrangements whereby the collateral is held in a segregated account for the benefit of the Fund and on behalf of the counterparty. Repurchase agreements afford the Fund the opportunity to earn a return on temporarily available cash at minimal market risk. While the underlying security may be a bill, certificate of indebtedness, note or bond issued by an agency, authority or instrumentality of the U.S. Government, the obligation of the seller is not guaranteed by the U.S. Government and there is a risk that the seller may fail to repurchase the underlying security. Consequently, there may be possible delays or restrictions upon the Fund's ability to dispose of the underlying securities. Upon an event of default under the Master Repurchase Agreement, the Fund would attempt to exercise its rights with respect to the underlying security, including taking possession of the cash and/or collateral provided by the seller. At December 31, 2021, the Fund was not a party to any repurchase transactions.
- H. Use of estimates The preparation of financial statements in accordance with U.S. Generally Accepted Accounting Principles ("GAAP") requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS (continued)

3. Risks and uncertainties

- A. Risks associated with focused investing The Fund, although diversified, takes a focused approach to investing within particular industries or sectors of the economy and may invest in a relatively small number of individual holdings. Therefore, the Fund may be subject to greater price volatility and may be more adversely affected by the performance of particular industries, sectors, or individual holdings than would a more diversified fund. In addition, funds that invest more heavily in certain industries, sectors or individual holdings are particularly susceptible to the impact of market, economic, regulatory and other factors affecting those investments.
- B. Risks associated with foreign investments The Fund may invest in securities issued by institutions, corporations, and governments established by or located in foreign countries, which may be developed or undeveloped countries. Investing in foreign securities may involve significant risks. For example, there is often less publicly available information about foreign companies, particularly those not subject to the disclosure and reporting requirements of the U.S. securities laws. Foreign issuers are often not bound by uniform accounting, auditing, and financial reporting requirements and standards of practice comparable to those applicable to domestic issuers. Investments in foreign securities also involve the risk of possible adverse changes in investment or exchange control regulations, expropriation or confiscatory taxation, political or financial instability or diplomatic and other developments which could affect such investments. Foreign stock markets, while growing in volume and sophistication, are often not as developed as those in the U.S., and securities of some foreign issuers (particularly those located in developing countries) may be less liquid and more volatile than securities of comparable U.S. companies. There may also be less overall governmental supervision and regulation of foreign securities markets, broker-dealers and issuers than in the U.S. Additionally, because some foreign securities the Fund may acquire are purchased with and payable in foreign currencies, the value of these assets as measured in U.S. dollars may be affected favorably or unfavorably by changes in currency exchange rates and exchange control regulations. There is no limit on the amount that the Fund may invest in issuers located in a single country or in foreign countries in the aggregate. To the extent the Fund focuses its investments in a single country or only a few countries in a particular geographic region, economic, political, regulatory or other conditions affecting such country or region may have a greater impact on Fund performance relative to a more geographically diversified fund.
- C. Recent events Financial markets have experienced and may continue to experience significant volatility resulting from the spread of the virus known as COVID–19. The outbreak of COVID–19 has resulted in, among other things, travel and border restrictions, quarantines, supply chain disruptions, lower consumer demand in some industries, and general market uncertainty. The effects of COVID–19 have adversely affected, and may continue to adversely affect, the global economy, the economies of certain nations, and individual issuers, all of which may negatively impact the fund's performance.
- **4. Purchases and sales of securities** For the year ended December 31, 2021, purchases and sales of securities other than U.S. Government or Agency obligations and short-term investments aggregated \$2,012,650,061 and \$2,062,765,965, respectively. For long-term government obligations, there were \$56,391,484 of purchases and \$38,535,703 of sales.

5. Fees and expenses

A. Management fees — During the year ended December 31, 2021, the Fund incurred management fees of \$2,910,406, paid or payable monthly to CGM, certain officers and employees of which are also officers and trustees of the Fund. The management agreement provides for a fee at the annual rate of 0.90% on the first \$500 million of the Fund's average daily net assets, 0.80% of the next \$500 million of the Fund's average daily net assets and 0.75% of such assets in excess of \$1 billion of the Fund's average daily net assets.

NOTES TO FINANCIAL STATEMENTS (continued)

From May 1, 2020 through April 30, 2021, the investment adviser agreed to waive its fees and/or reimburse expenses of the Fund to the extent necessary to reduce the Fund's total annual operating expenses by 0.10%. As a result of the agreed waiver, for the period from January 1, 2021 through April 30, 2021, CGM waived \$103,104 of its management fee.

- B. Other expenses The majority of expenses are directly attributable to the Fund. Expenses that are not readily attributable to the Fund are allocated among each of the three funds comprising the Trust in an equitable manner, taking into consideration, among other things, the nature and type of expense and the funds' respective net assets. CGM performs certain administrative, accounting, compliance and other services for the Fund. The expenses of those services, which are paid to CGM by the Fund, include the following: (i) expenses for personnel performing bookkeeping, accounting and financial reporting and clerical functions relating to the Fund; (ii) expenses for services required in connection with the preparation of registration statements and prospectuses, shareholder reports and notices, proxy solicitation material furnished to shareholders of the Fund or regulatory authorities and reports and questionnaires for Securities and Exchange Commission ("SEC") compliance; (iii) registration, filing and other fees in connection with requirements of regulatory authorities and (iv) compliance in connection to the Investment Company Act of 1940 and the Sarbanes-Oxley Act of 2002. The accounting, administration and compliance expenses of \$295,820, for the year ended December 31, 2021, are shown separately in the Statement of Operations. These expenses include the reimbursement of a portion of the compensation expenses incurred by CGM for its employees who provide these administrative, accounting, compliance, and other services to the Fund, including \$275,452 of the salaries of CGM employees who are officers of the Fund.
- C. Trustees fees and expenses The Fund does not pay any compensation directly to any trustees who are "interested persons" (as defined in the Investment Company Act of 1940) of CGM or any affiliate of CGM (other than registered investment companies). For the year ended December 31, 2021, each disinterested trustee was compensated by the Trust with an annual fee of \$90,000 plus travel expenses for each meeting attended. The disinterested trustees are responsible for the audit committee functions of the Trust's Board and have designated a disinterested trustee to lead the Board's efforts in overseeing those functions, who receives an additional \$30,000 annually. Of these amounts, the Fund is responsible for \$10,000 per trustee annually, plus an annual variable fee calculated based on the proportion of the Fund's average net assets relative to the aggregate average net assets of the Trust.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees of CGM Trust and Shareholders of CGM Mutual Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of CGM Mutual Fund (one of the funds constituting CGM Trust, referred to hereafter as the "Fund") as of December 31, 2021, the related statement of operations for the year ended December 31, 2021, the statement of changes in net assets for each of the two years in the period ended December 31, 2021, including the related notes, and the financial highlights for each of the five years in the period ended December 31, 2021 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2021, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended December 31, 2021 and the financial highlights for each of the five years in the period ended December 31, 2021 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2021 by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

PricewaterhouseCoopers LLP

Boston, Massachusetts February 15, 2022

We have served as the auditor of one or more investment companies in Capital Growth Management Investment Company Complex since at least 1994. We have not determined a specific year we began serving as auditor.

ADDITIONAL INFORMATION

(unaudited)

Availability of proxy voting information:

Proxy voting policies and information regarding how the Fund voted proxies relating to portfolio securities during the twelve month period ended June 30, 2021 are available without charge, by calling 800-345-4048. The policies also appear in the Fund's Statement of Additional Information, which can be found on the CGM Funds' website, www.cgmfunds.com, and the SEC's website, www.sec.gov. The voting records can also be found on the SEC's website on the N-PX filing.

Portfolio holdings:

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N–PORT, which is available on the SEC's website at www.sec.gov. Portfolio holdings are also disclosed in the Fund's quarterly reports. The Fund's four most recent quarterly reports can be obtained on the CGM Funds' website, www.cgmfunds.com.

The Fund's Prospectus and Statement of Additional Information contain additional information on other risks and uncertainties relating to the Fund's investments. The Fund's Prospectus and Statement of Additional Information can be obtained on the CGM Funds' website, www.cgmfunds.com, and the SEC's website, www.sec.gov or by calling 800-345-4048.

Liquidity Risk Management Program:

Rule 22e-4 ("Liquidity Rule") under the Investment Company Act of 1940 ("1940 Act") requires registered open-end funds to establish and implement a written Liquidity Risk Management Program reasonably designed to assess and manage its liquidity risk. The Fund must also periodically review its liquidity risk. In addition, a written report is provided to the Fund's Board of Trustees annually which details the operation of the Fund's program.

Pursuant to its program, the Fund classifies the liquidity of its portfolio investments into one of the four categories defined by the SEC: "Highly Liquid", "Moderately Liquid", "Less Liquid" and "Illiquid". These classifications are reported to the SEC on Form N-PORT. The Liquidity Rule requires open-end funds that are not invested primarily in "Highly Liquid" investments to establish a "Highly Liquid Investment Minimum" ("HLIM"), which is the minimum percentage of net assets that must be invested in Highly Liquid investments (i.e., cash or investments that are reasonably expected to be convertible into cash within three business days without significantly changing the market value of the investment). It was determined through periodic reviews that the Fund's portfolio holdings have been primarily Highly Liquid and, therefore, the Fund does not need to establish a HLIM.

The Fund may not acquire an investment if, immediately after the acquisition, over 15% of the Fund's net asset would consist of Illiquid investments (an investment that cannot reasonably be expected to be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment). The Fund is required to report to the SEC and the Fund's Board of Trustees if the Fund holds illiquid investments in excess of the 15% limit. No such reporting was required during the past year. For the year, there were no material changes to the Fund's program and periodic stress testing confirmed that the Fund held sufficient liquid investments to cover all reasonably foreseeable levels of cash flow.

TAX INFORMATION FOR THE TAX YEAR ENDED December 31, 2021

(unaudited)

We are providing this information as required by the IRC.

For taxable non-corporate shareholders, 8.5% of the 2021 ordinary dividend is considered qualified dividend income that may be eligible for reduced capital gains rates.

For corporate shareholders, 8.5% of the 2021 ordinary dividend qualifies for the dividends-received deduction.

FUND EXPENSES

(unaudited)

As a shareholder of CGM Mutual Fund, you incur two types of costs: (1) transaction costs, which could include, among other charges, wire fees and custodial maintenance fees for certain types of accounts and (2) ongoing costs, including management fees and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period July 1, 2021 to December 31, 2021.

Actual return and expenses

The first line of the table below provides information about actual account values and actual expenses.

You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period.

You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs such as any wire fees or custodial maintenance fees that may be payable. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	Beginning Account Value 07/01/21	Ending Account Value 12/31/21	Expenses Paid During Period* 07/01/21 - 12/31/21
Actual	\$1,000.00	\$1,018.91	\$5.98
Hypothetical (5% return before expenses)	\$1,000.00	\$1,019.28	\$5.98

^{*} Expenses are equal to the Fund's annualized expense ratio of 1.18%, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period).

TRUSTEES AND OFFICERS

The Fund is supervised by the Board of Trustees (the "Board") of the Trust. The Board is responsible for the general oversight of the Fund, including general supervision and review of the Fund's investment activities. The Board, in turn, elects the officers who are responsible for administering the Fund's day-to-day operations.

An asterisk in the following table identifies those trustees and officers who are "interested persons" of the Trust as defined in the Investment Company Act of 1940. Each trustee and officer of the Trust noted as an interested person is interested by virtue of that individual's position with CGM, as described in the table below. Each trustee serves during the continued lifetime of the Trust, until he or she earlier dies, resigns or is removed, or if sooner, until the election and qualification of his or her successor. Each officer serves until his or her successor is elected or qualified, or until the officer sooner dies, resigns, or is removed or becomes disqualified.

The trustees and officers of the Trust, their ages, their principal occupations during the past five years, the number of CGM Funds they oversee, and other directorships they hold are set forth below. Unless otherwise noted below, the address of each interested trustee and officer is One International Place, Boston, Massachusetts 02110. Correspondence intended for the trustees who are not "interested persons" of the Trust may be sent c/o Capital Growth Management, One International Place, Boston, Massachusetts 02110. The Statement of Additional Information for the Fund includes additional information about Fund trustees and is available on the CGM Funds' website, www.cgmfunds.com, or by calling 800-345-4048.
