STATEMENT OF ADDITIONAL INFORMATION

May 1, 2011

This Statement of Additional Information (the "Statement" or "SAI") provides further information concerning the activities and operations of CGM Realty Fund, a series of CGM Trust. This Statement is not a prospectus and should be read in conjunction with the CGM Realty Fund Prospectus dated May 1, 2011 (the "Prospectus"). Certain information which is included in the Prospectus is incorporated by reference into this Statement. A copy of the Prospectus may be obtained without charge by writing to: CGM Trust, c/o The CGM Funds Investor Services Division, 38 Newbury St., 8th Fl., Boston, Massachusetts 02116, or by calling 800-345-4048.

Certain financial information which is included in the Fund's Annual Report to shareholders for the period ended December 31, 2010 is incorporated by reference into this Statement.

INTRODUCTION

CGM Realty Fund (the "Fund") is registered with the Securities and Exchange Commission ("SEC") as a diversified open-end management investment company and is organized as a separate series of shares of CGM Trust (the "Trust"). The Trust was established as a Massachusetts business trust under the laws of Massachusetts in 1986. The Trust is governed by an Amended and Restated Agreement and Declaration of Trust, dated January 23, 1997, as amended from time to time (the "Declaration of Trust"). The Trust is a successor in interest to Loomis-Sayles Mutual Fund. On March 1, 1990, the Trust's name was changed from "Loomis-Sayles Mutual Fund" to "CGM Mutual Fund" to reflect the assumption by Capital Growth Management Limited Partnership ("CGM" or the "Investment Manager") of investment advisory responsibilities with respect to the Trust. On December 20, 1991, the Trust's name was changed to CGM Trust.

Descriptions in the Prospectus and in this Statement of a particular investment practice or technique in which the Fund may engage or a financial instrument which the Fund may purchase are meant to describe the spectrum of investments that CGM, in its discretion, might, but is not required to, use in managing the Fund's portfolio assets. CGM may, in its discretion, at any time employ such practice, technique or instrument for one or more funds but not necessarily for all funds advised by it. Furthermore, it is possible that certain types of financial instruments or investment techniques described herein may not be available, permissible, economically feasible or effective for their intended purposes in all markets. Certain practices, techniques, or instruments may not be principal activities of the Fund but, to the extent employed, could from time to time have a material impact on the Fund's performance.

ADDITIONAL INFORMATION REGARDING STRATEGIES AND RISKS

The following supplements the discussion in the Prospectus of the various investment strategies and techniques that may be employed by the Fund and certain associated risks. See Appendix A for a description of credit ratings.

Real Estate Companies. Under normal circumstances, the Fund will invest at least 80% of its assets in equity securities of companies in the real estate industry. Shareholders of the Fund will be provided with at least 60 days prior notice of any change in the policy regarding investing at least 80% of its assets in equity securities of companies in the real estate industry.

A company is considered in the real estate industry if construction, ownership, management, financing and sales of residential, commercial or industrial real estate accounts for not less than 50% of its gross revenues or net profits. Investments that the Fund makes in companies with significant real estate holdings (but not otherwise in the real estate industry) will be considered to be investments in the real estate industry for purposes of evaluating compliance with the Fund's investment restrictions. The Fund's total investment in companies possessing such significant real estate holdings within any particular industry will not exceed 25% of the market value of the Fund's total assets.

Non-Investment Grade Securities. The Fund may invest up to 20% of its total assets in debt or fixed-income securities of a quality below investment grade at the time of investment (i.e., securities rated lower than Baa by Moody's Investors Service, Inc. ("Moody's") or lower than BBB by Standard & Poor's Ratings Group ("S&P"), or their equivalent as determined by the Investment Manager). The Fund may not invest in fixed income securities rated lower than Caa by Moody's or CCC by S&P. Securities rated non-investment grade (lower than Baa by Moody's or lower than BBB by S&P) are sometimes referred to as "high yield" or "junk bonds." High yield securities are subject to the following risks, in addition to those described in the Prospectus:

- High yield securities may be regarded as predominantly speculative with respect to the issuer's continuing ability to make principal and interest payments. Analysis of the creditworthiness of issuers of high yield securities may be more complex than for issuers of higher quality debt securities, and the ability of the Fund to achieve its investment objectives may, to the extent of its investments in high yield securities, be more dependent upon such creditworthiness analysis than would be the case if the Fund were investing in higher quality securities.
- High yield securities may be more susceptible to real or perceived adverse economic and competitive industry conditions than higher quality securities. The prices of high yield securities have been found to be less sensitive to interest rate changes than more highly rated investments, but more sensitive to economic downturns or individual corporate developments. Yields on a high yield security will fluctuate. If the issuer of high yield securities defaults, the Fund may incur additional expenses to seek recovery.
- The secondary markets on which high yield securities are traded may be less liquid than the market for higher-grade securities. Less liquidity in the secondary trading markets could adversely affect the price at which the Fund could sell a particular high yield security when necessary to meet liquidity needs or in response to a specific economic event, such as a deterioration in the creditworthiness of the issuer, and could adversely affect and cause large fluctuations in the daily net asset value of the Fund's shares. Adverse publicity and investor perceptions may decrease the value and liquidity of high yield securities.
- It is reasonable to expect any recession to severely disrupt the market for high yield securities, have an adverse impact on the value of such securities, and adversely affect the ability of the issuers of such securities to repay principal and pay interest thereon. New laws and proposed new laws may adversely impact the market for high yield securities.

Repurchase Agreements. The Fund may invest up to 20% of its total assets in repurchase agreements. A repurchase agreement is an instrument under which the purchaser acquires ownership of a security and obtains a simultaneous commitment from the seller (a bank or, to the extent permitted by the Investment Company Act of 1940, as amended (the "1940 Act"), a recognized securities dealer) to repurchase the security at an agreed-upon price

and date (usually seven days or less from the date of original purchase). The resale price is in excess of the purchase price and reflects an agreed-upon market rate unrelated to the coupon rate on the purchased security. Such transactions afford the Fund the opportunity to earn a return on temporarily available cash at minimal market risk. While the underlying security may be a bill, certificate of indebtedness, note or bond issued by an agency, authority or instrumentality of the U.S. Government, the obligation of the seller is not guaranteed by the U.S. Government and there is a risk that the seller may fail to repurchase the underlying security. In such event, the Fund would attempt to exercise rights with respect to the underlying security, including possible disposition in the market. However, the Fund may be subject to various delays and risks of loss, including (1) possible declines in the value of the underlying security during the period while the Fund seeks to enforce its rights thereto, (2) possible reduced levels of income and lack of access to income during this period, and (3) inability to enforce rights and the expenses involved in attempted enforcement.

Reverse Repurchase Agreements. The Fund may enter into reverse repurchase agreements with banks or broker-dealers. Reverse repurchase agreements involve the sale of a security held by the Fund and its agreement to repurchase the instrument at a stated price, date and interest payment. Reverse repurchase agreements may be considered to be borrowings by the Fund and entail additional risks such as the occurrence of interest expenses and fluctuations in the Fund's net asset value. In connection with entering into reverse repurchase agreements, a segregated account of the Fund consisting of cash, cash equivalents, U.S. Government securities or other high quality liquid debt securities with an aggregate value at all times sufficient to repurchase the securities, or equal to the proceeds received upon the sale plus accrued interest, will be established with the Fund's custodian bank.

Mortgage-Related and Asset-Backed Securities. The Fund may invest in mortgage-related securities and asset-backed securities. Mortgage-related securities are represented by pools of mortgage loans or loans assembled for sale to investors by various governmental agencies, such as the Government National Mortgage Association, and government-related organizations, such as the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation, as well as by private issuers, such as commercial banks, savings and loan institutions, financial corporations, mortgage bankers and private mortgage insurance companies. Asset-backed securities are pass-through securities backed by non-mortgage assets, including automobile loans, credit card receivables and consumer receivables. Although certain mortgage-related and asset-backed securities are guaranteed by a third party or otherwise similarly secured, the market value of the security, which may fluctuate, and the yield are not so secured. If the Fund purchases a mortgage-related or an asset-backed security at a premium, all or part of the premium may be lost if there is a decline in the market value of the security, whether resulting from changes in interest rates or prepayments in the underlying mortgage collateral.

As with other interest-bearing securities, the prices of such securities are inversely affected by changes in interest rates. However, although the value of a mortgage-related or asset-backed security may decline when interest rates rise, the converse is not necessarily true, because in periods of declining interest rates the mortgages or assets underlying the security may be more likely to be prepaid. The possibility of prepayment may cause

mortgage-backed securities to experience significantly greater price and yield volatility than traditional debt securities. A mortgage-related or asset-backed security's stated maturity may be shortened by unscheduled prepayments on the underlying mortgages or assets and, therefore, it is not possible to predict accurately the security's return. Such prepayments may expose the Fund to a lower rate of return on reinvestment. To the extent that such mortgage-related securities are held by the Fund, the prepayment right of the mortgagors may limit the increase in net asset value of the Fund because the value of the mortgage-related securities held by the Fund may not appreciate as rapidly as the price of other debt securities.

Illiquid Securities. The Fund may invest up to 10% of its net assets in illiquid securities. Securities that may be resold without registration pursuant to Rule 144A under the Securities Act of 1933, as amended, may be treated as liquid for purposes of this policy, subject to the supervision and oversight of the Board of Trustees, in accordance with guidelines established by the Board of Trustees to determine whether there is a readily available market for such securities. These securities may include securities issued by certain REITs that are not publicly traded. The foregoing investment practice could have the effect of increasing the level of illiquidity in the Fund to the extent that qualified institutional buyers become uninterested in purchasing the securities.

Foreign Securities. The Fund may invest in securities issued by institutions, corporations and governments established by or in one or more foreign countries, which may be developed or undeveloped countries. Such foreign securities will otherwise satisfy the limitations and restrictions applicable to the Fund. In making foreign investments, the Fund will also give appropriate consideration to the following factors, among others:

- In addition to the risks associated with investing in foreign issuers, as described in the Prospectus, because some foreign securities the Fund may acquire are purchased with and payable in currency of foreign countries, the value of these assets as measured in U.S. dollars may be affected favorably or unfavorably by changes in currency rates and exchange control regulations. Certain currency exchange expenses may be incurred when the Fund changes investments from one country to another.
- Foreign securities markets generally are not as developed or efficient as those in the United States. Securities of some foreign issuers are less liquid and more volatile than securities of comparable U.S. issuers. Similarly, volume and liquidity in most foreign securities markets are less than in U.S. markets and, at times, volatility of prices can be greater than in the United States. There may be less government supervision and regulation of securities exchanges, brokers and listed companies. The issuers of some of these securities, such as foreign bank obligations, may be subject to less stringent or different regulations than those governing U.S. issuers. In addition, there may be less publicly available information about a foreign issuer, and foreign issuers are not subject to uniform accounting and financial reporting standards, practices and requirements comparable to those applicable to U.S. issuers. Further, it may be more difficult to obtain

current information about corporate actions by foreign issuers of portfolio securities that affect the prices of such securities.

- Foreign securities are also subject to additional risks of possible adverse political and economic developments, possible seizure or nationalization of foreign deposits and possible adoption of governmental restrictions, which might adversely affect the payment of principal and interest on the foreign securities or might restrict the payment of principal and interest to investors located outside the country of the issuer, whether from currency blockage or otherwise. The Fund's ability and decisions to purchase and sell portfolio securities may be affected by laws or regulations relating to the convertibility and repatriation of assets.
- Some foreign securities may be subject to transfer taxes levied by foreign governments, and the income received by the Fund from sources within foreign countries may be reduced by withholding and other taxes imposed by such countries. The Fund will also incur higher custody costs in connection with foreign securities.

Depository Receipts. The Fund may invest in securities of non-U.S. issuers directly and through investments in depository receipts. American Depository Receipts ("ADRs") and other forms of depository receipts for securities of non-U.S. issuers provide an alternative method for the Fund to make non-U.S. investments. These securities are not usually denominated in the same currency as the securities into which they may be converted. Generally, ADRs, in registered form, are designed for use in U.S. securities markets. ADRs are receipts typically issued by a U.S. bank or trust company evidencing ownership of the underlying securities.

ADRs may be issued pursuant to sponsored or unsponsored programs. In sponsored programs, an issuer has made arrangements to have its securities traded in the form of depository receipts. In unsponsored programs, the issuer may not be directly involved in the creation of the program. Although regulatory requirements with respect to sponsored and unsponsored programs are generally similar, in some cases it may be easier to obtain financial information from an issuer that has participated in the creation of a sponsored program. Accordingly, there may be less information available regarding issuers of securities underlying unsponsored programs and there may not be a correlation between such information and the market value of the depository receipts.

The Fund may also invest in other forms of depository receipts for non-U.S. issuers, such as Global Depository Receipts ("GDRs"). GDRs are similar to ADRs, but are usually listed on stock exchanges located outside of the United States, such as the London Stock Exchange.

Temporary Defensive Positions. The Fund may depart from its principal investment strategies by taking temporary defensive positions in response to adverse market, economic or political conditions. When doing so, the Fund may hold a substantial portion of its assets in cash or investment grade fixed-income securities and may not be pursuing its investment objective.

FUNDAMENTAL INVESTMENT RESTRICTIONS

The Fund may not:

(1) Borrow money, except that it may borrow from banks in an amount not to exceed 1/3 of the value of its total assets and may borrow for temporary purposes from entities other than banks in an amount not to exceed 5% of the value of its total assets;

(2) Issue any senior securities, except as permitted by the terms of any exemptive order or similar rule issued by the SEC relating to multiple classes of shares of beneficial interest of the Trust, and provided further that collateral arrangements with respect to forward contracts, futures contracts, short sales or options, including deposits of initial and variation margin, shall not be considered to be the issuance of a senior security for purposes of this restriction;

(3) Act as an underwriter of securities issued by other persons, except insofar as the Fund may be deemed an underwriter in connection with the disposition of securities;

(4) Purchase any securities which would cause more than 25% of the market value of its total assets at the time of such purchase to be invested in the securities of one or more issuers having their principal business activities in the same industry, provided that there is no limit with respect to investments in the real estate industry and in securities issued by the U.S. Government, its agencies and instrumentalities. The Board of Trustees of the Fund has adopted a non-fundamental policy of the Fund under normal circumstances to invest at least 25% of the market value of its total assets in the real estate industry measured at the time of any purchase of securities;

(5) Purchase or sell real estate, except that the Fund may invest in securities of companies that deal in real estate or are engaged in the real estate business, including real estate investment trusts, and securities secured by real estate or interests therein and the Fund may hold and sell real estate acquired as a result of the Fund's ownership of such securities;

(6) Purchase or sell commodities or commodity futures contracts, except that the Fund may invest in financial futures contracts, options thereon and similar instruments;

(7) Make loans to other persons except (a) through the lending of securities held by it, (b) through the use of repurchase agreements, and (c) by the purchase of debt securities in accordance with its investment policies; or

(8) With respect to 75% of its total assets, purchase more than 10% of the outstanding voting securities of any one issuer or invest more than 5% of the value of its total assets in securities of any one issuer, except the U.S. Government, its agencies or instrumentalities.

Except with respect to the Fund's fundamental policy with respect to borrowing money, if a percentage restriction is adhered to at the time of an investment, a later increase or

decrease in such percentage resulting from a change in the values of assets will not constitute a violation of such restriction.

Unless otherwise indicated, the investment restrictions above have been adopted by the Trust as fundamental policies of the Fund. Under the 1940 Act, a fundamental policy may not be changed without the vote of a majority of the outstanding voting securities of the Fund, as defined under the 1940 Act. "Majority" means the lesser of (1) 67% or more of the shares present at a meeting of shareholders of the Fund, if the holders of more than 50% of the outstanding shares of the Fund are present or represented by proxy, or (2) more than 50% of the outstanding shares of the Fund. Non-fundamental investment restrictions may be changed at any time by vote of a majority of the Trust's Board of Trustees.

PORTFOLIO TURNOVER

Although the Fund's objective is to provide a combination of income and long-term growth of capital, it frequently buys and sells securities to respond to changes in market, sector, or individual company conditions or outlook, and it may only hold these securities for a short period. Frequent trading involves higher securities transaction costs, which may adversely affect the Fund's performance. To the extent that this policy results in the realization of gains on investments, the Fund will make distributions to its shareholders. These distributions will generally be subject to taxes.

The Fund's portfolio turnover rate for the past five years of its operation is set forth in the Prospectus in the table entitled "Financial Highlights." The Fund's portfolio turnover rate has varied significantly from year to year in the recent past due to the volatility of economic and market conditions, and the Fund anticipates similar variations in the future.

DISCLOSURE OF PORTFOLIO HOLDINGS

The Board of Trustees of the Fund has adopted a policy governing disclosure of the Fund's portfolio holdings (the "Portfolio Holdings Disclosure Policy" or the "Policy"). Non-public information about the portfolio holdings of the Fund cannot be shared with financial consultants, investors and potential investors (whether individual or institutional), or other third parties except in accordance with the Policy. The Policy allows the Fund to disclose to third parties non-public information on its securities positions as follows:

(1) The Fund may release generally non-public portfolio holdings information in the following circumstances:

- (a) A trade in process or that is planned may be discussed with counterparties, potential counterparties and others involved in the transaction (i.e., brokers and custodians).
- (b) The portfolio manager for the Fund may disclose selected portfolio holdings, industry and sector weightings, and other general portfolio information in interviews and other communications with the financial press and other media, provided (i) the portfolio manager determines that it is consistent with

the interests of Fund shareholders to do so, (ii) the Fund does not have pending trades in the securities that are disclosed, and (iii) the portfolio manager does not disclose the number or principal amount of any security held by the Fund. Members of the financial press and other media are not required to enter into confidentiality agreements or undertakings not to trade on the information disclosed in connection with such interviews or other communications.

(2) The Fund and its service providers may release non-public portfolio holdings information to their investment adviser, custodian, sub-custodian, auditors, or legal counsel or to a proxy voting provider, rating agency, or other vendor or service provider as may be necessary or convenient for these parties to provide services to the Fund, subject to contractual, legal or other confidentiality restrictions prohibiting the recipient from sharing such non-public information with an unauthorized source or trading upon the information so provided.

(3) The Fund, as authorized by the President, Treasurer or Chief Compliance Officer of the Fund, may release non-public information on its securities holdings to any party to the extent required by laws, regulations, exchange rules, self-regulatory organization rules, or court or governmental orders that apply to the Fund or its service providers, including without limitation the rules of the SEC.

(4) The Fund may release non-public information on its securities holdings to such other parties and on such other bases as may be approved by both the President and the Chief Compliance Officer of the Fund, provided that (a) the President and Chief Compliance Officer of the Fund determine that such disclosures are in the best interest of the Fund's shareholders, (b) the Fund or its service providers have legitimate business purposes for these disclosures; and (c) no payment is made by any third party to any service provider of the Fund in consideration of the release.

The Portfolio Holdings Disclosure Policy is binding upon the officers of the Fund and each of the Fund's third party service providers, including the investment adviser, the custodian, and the auditors. The Policy does not require disclosure of information on portfolio holdings and does not limit any disclosures of information on portfolio holdings that has been or is concurrently being disclosed in a publicly available filing with the SEC. Compliance with the Portfolio Holdings Disclosure Policy is monitored by the Chief Compliance Officer of the Fund. The Chief Compliance Officer is responsible for resolving any conflicts of interest between the Fund shareholders on one hand, and the Fund's vendors or service providers on the other. The Board of Trustees of the Fund reviews the Portfolio Holdings Disclosure Policy on a periodic basis, and receives reports from the Chief Compliance Officer of any material violations of the Policy on a quarterly basis.

The chart below identifies each party that in the normal course of business receives from the Fund non-public portfolio holdings information of the Fund, the frequency at which that information is received, and the length of the lag, if any, between the date of the information and the date on which the information is disclosed to such party.

Recipient of Portfolio Information	Frequency of Portfolio Information Received	Time Lag between Date of Information and Disclosure
CGM (Adviser)	Continuously provided on a daily basis	None
PricewaterhouseCoopers LLP (independent registered accounting firm)	During the annual audit of the Fund's financial statements and November tax reviews	Typically 4 days, but in certain circumstances there could be no time lag
State Street Bank and Trust Company (Custodian)	Daily access to portfolio holdings	None
George H. Dean Co. (Printer)	Quarterly	Typically 5 business days
Bingham McCutchen LLP (Counsel)	Quarterly	Typically 3-4 weeks
CGM Trustees	Monthly	Typically 2 weeks
Sungard Investment Systems (portfolio software provider)	Daily access to portfolio holdings	None

MANAGEMENT OF THE FUND

The Fund is supervised by the Board of Trustees (the "Board") of the Trust. The Board is responsible for the general oversight of the Fund, including general supervision and review of the Fund's investment activities. The Board, in turn, elects the officers who are responsible for administering the Fund's day-to-day operations.

An asterisk in the following table identifies those trustees and officers who are "interested persons" of the Trust as defined in the 1940 Act. Each trustee and officer of the Trust noted as an interested person is interested by virtue of that individual's position with CGM, as described in the table below. Each trustee serves during the continued lifetime of the Trust or until he earlier dies, resigns or is removed, or if sooner, until the election and qualification of his successor. Each officer serves until his or her successor is elected or qualified, or until the officer sooner dies, resigns, or is removed or becomes disqualified.

The trustees and officers of the Trust, their ages, their principal occupations during the past five years, the number of CGM Funds they oversee, and other directorships they hold are set forth below. Unless otherwise noted below, the address of each interested trustee and officer is One International Place, Boston, Massachusetts 02110. Correspondence intended for the trustees who are not "interested persons" of the Trust may be sent c/o Capital Growth Management, One International Place, Boston, Massachusetts 02110.

The Board believes that each trustee’s experience, qualifications, attributes or skills on an individual basis and in combination with those of the other trustees demonstrate that the Board possesses the requisite skills and attributes to effectively exercise its general oversight responsibility with respect to the Fund. The Board believes that the trustees are able to review critically, evaluate, question and discuss information provided to them, to interact effectively with the Investment Manager, independent auditors and counsel, and to exercise effective business judgment in the performance of their duties. The Board has also considered the contributions that each trustee can make to the Board and the Fund. In addition, the following specific experience, qualifications, attributes and/or skills apply as to each trustee:

- Mr. Heebner- investment management expertise and current service as portfolio manager of the Fund, as well as leadership experience as an executive at CGM and previously in other capacities;
- Mr. Kemp- experience as President of CGM and previously as Chief Executive Officer of another asset management company, in addition to experience as an investment adviser and portfolio manager;
- Mr. Brown- legal background and experience as an officer of various financial institutions and as a board member of other mutual funds;

- Mr. Holland- financial advisory expertise and experience in the asset management industry as an executive officer and director;
- Mr. Quereau- investment management industry expertise, including as an executive officer and director of various organizations; and
- Mr. Whittlesey- legal expertise, particularly in the areas of securities and corporate law.

Mr. Kemp, who is an interested person of the Fund, serves as Chairman of the Board. In light of the relatively small number of disinterested trustees, the Board has not designated a lead independent trustee; rather, the disinterested trustees act collectively through a Trustees Committee composed of all of the disinterested trustees of the Trust.

The responsibilities of the Trustees Committee are to: (1) perform the specific tasks assigned to disinterested trustees pursuant to the 1940 Act, including annual consideration of the investment management contracts with respect to each series of the Trust; (2) perform the Audit Committee Functions set forth in the Trustees Committee Charter and consider any questions raised by the independent accountants concerning the financial reporting process, internal controls, and compliance procedures of the series of the Trust; (3) select and nominate any disinterested trustees of the Trust; (4) review on a periodic basis the governance structures and procedures of the series of the Trust; (5) review proposed resolutions of conflicts of interest that may arise in the business of the series of the Trust and may have an impact on the shareholders of those series; (6) review and consider matters that are reported to the Trustees Committee under the Sarbanes Oxley Codes of Ethics of the Trust; (7) meet separately no less frequently than annually with the chief compliance officer of the Trust (the "CCO") pursuant to Rule 38a-1 under the 1940 Act and consider any compliance matters referred to the Committee by the CCO; (8) consider the appointment and compensation of the CCO and any proposal to remove the CCO; (9) evaluate the performance of the CCO on at least an annual basis and establish performance goals for the CCO; and (10) provide general oversight of the series of the Trust on behalf of shareholders. Mr. Quereau serves as chair of the audit committee functions of the Trustees Committee.

The Trustees Committee met five times during the fiscal year ended December 31, 2010. The Trustees Committee does not have a procedure to consider nominees recommended by shareholders.

The Board believes that the Trustees Committee helps ensure that the Fund has effective and independent governance and oversight. The Trustees Committee structure allows each disinterested trustee to gain a fuller understanding of the issues faced by the Funds and to more effectively contribute to the resolution of these issues. The Board has determined that the structure and function of the Trustees Committee is an efficient and effective means of involving all of the disinterested trustees in the oversight of the Fund.

In light of the foregoing and in view of the investment objectives of the CGM Funds, the size and number of the CGM Funds, and the fact that the CGM Funds all have the same Manager and portfolio manager, the Board has determined that the Board's leadership structure is appropriate.

As part of its overall responsibility for general oversight of the Fund, the Board oversees the risk management of the Fund, as conducted by the Investment Manager. The Board has emphasized to the Investment Manager the importance of maintaining a robust risk management program for itself and for the Fund. Oversight of the risk management process is part of the Board's general oversight of the Fund and its service providers. Additionally, the Board meets on a quarterly basis with the Fund's Chief Compliance Officer and semi-annually with the Fund's independent registered public accountants, and the chair of the audit committee functions of the Trustees Committee meets regularly with the Fund's Treasurer and custodian. In the course of these meetings, various aspects of the Fund's risk management program are addressed.

The Fund faces a number of risks, such as investment risk, business continuity risk, and legal, compliance and regulatory risk. Risk management seeks to identify and address events or circumstances that could have material adverse effects on the business, operations, investment performance or reputation of the Fund. The Board recognizes that not all risks that may affect the Fund can be identified, that it may not be cost-effective or even possible to eliminate or mitigate certain risks, that it may be necessary to bear certain risks (such as investment-related risks) to achieve the Fund's goals, and that the efforts to mitigate certain risks may be limited in their effectiveness. As a result of the foregoing and other factors, the Board's risk management oversight is necessarily subject to limitations.

The following table shows the trustees' ownership in the Fund and in all registered investment companies in the CGM Funds complex overseen by the trustees, as of December 31, 2010.

Name of Trustee	Dollar Range of Equity Securities in the Fund	Aggregate Dollar Range of Equity Securities in All Funds in the CGM Funds Complex Overseen by the Trustees
Interested Trustees		
Ken Heebner	Over \$1,000,000	Over \$1,000,000
Robert L. Kemp	Over \$1,000,000	Over \$1,000,000
Disinterested Trustees		
Peter O. Brown	Over \$100,000	Over \$100,000
Mark W. Holland	None	\$50,001-\$100,000
James Van Dyke Quereau, Jr.	None	Over \$100,000
J. Baur Whittlesey	None	Over \$100,000

The Trust pays no compensation to the trustees listed above who are interested persons of the Fund. Trustees receive no pension or retirement benefits paid from Fund expenses. None of the three most highly compensated officers of the Fund received aggregate compensation exceeding \$60,000 from the Fund in the year ended December 31, 2010.

The following table sets forth the compensation paid by the Fund to its trustees for the year ended December 31, 2010:

Name of Trustee	Aggregate Compensation from Fund	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Compensation from the Trust and Fund Complex Paid to Trustees	Number of Funds in the CGM Funds Complex Overseen
Interested Trustees					
Ken Heebner	None	None	None	None	3
Robert L. Kemp	None	None	None	None	3
Disinterested Trustees					
Peter O. Brown	\$18,372	None	None	\$70,000	3
Mark W. Holland	\$18,372	None	None	\$70,000	3
James Van Dyke Quereau, Jr.	\$26,246	None	None	\$100,000	3
J. Baur Whittlesey	\$18,372	None	None	\$70,000	3

Principal Holders of Securities and Management Ownership

As of March 31, 2011, the trustees and officers of the Fund as a group owned beneficially less than 1% of the outstanding shares of the Fund.

As of March 31, 2011, the following record shareholders owned 5% of or more of the outstanding shares of the Fund.

Name and Address of Shareholders	Percentage Ownership of Shares Owned of Record
Charles Schwab & Co. Inc. 101 Montgomery St. San Francisco, CA 94104	24.28%
Pershing LLC P.O. Box 2052 Jersey City, NJ 07303	11.41%
TD Ameritrade Inc. P.O. Box 2226 Omaha, NE 68103	8.96%

INVESTMENT ADVISORY AND OTHER SERVICES

Advisory Agreement

CGM serves as investment manager of the Fund under an advisory agreement approved by the shareholders of the Fund at a special meeting held on November 19, 2004 and effective as of December 31, 2004. The advisory agreement continues in effect from year to year, provided such continuance is approved at least annually (i) by the trustees or by a majority of the outstanding voting securities of the Fund, and (ii) in either event, by a

majority of the disinterested trustees at a meeting called for the purpose of voting on such approval. Ken Heebner has continuously managed the Fund since inception.

Under the advisory agreement, CGM manages the investment and reinvestment of assets of the Fund and generally administers its affairs, subject to supervision by the Board of Trustees of the Trust. CGM furnishes, at its own expense, all necessary office supplies, facilities and equipment, services of executive and other personnel of the Fund and certain administrative services. For these services, CGM is compensated at the annual percentage rate of 0.85% of the first \$500 million of the Fund's average daily net asset value, and 0.75% of such value in excess of \$500 million. For the fiscal years ended December 31, 2008, 2009 and 2010, the advisory fee paid to CGM amounted to \$14,799,499, \$7,934,971 and \$11,126,650, respectively.

The Fund pays the compensation of its trustees who are not partners, directors, officers or employees of CGM or its affiliates (other than registered investment companies); registration, filing, and other fees in connection with requirements of regulatory authorities; all charges and expenses of its custodian and transfer agent; the charges and expenses of its independent accountants; all brokerage commissions and transfer taxes in connection with portfolio transactions; all taxes and fees payable to governmental agencies; the cost of any certificates representing shares of the Fund; the expenses of meetings of the shareholders and trustees of the Fund; the charges and expenses of the Fund's legal counsel; interest, including on any borrowings by the Fund; the cost of services, including services of counsel, required in connection with the preparation of, and the costs of printing registration statements and prospectuses relating to the Fund, including amendments and revisions thereto, annual, semi-annual, and other periodic reports of the Fund, and notices and proxy solicitation material furnished to shareholders of the Fund or regulatory authorities, to the extent that any such materials relate to the Fund or its shareholders; and the Fund's expenses of bookkeeping, accounting, auditing and financial reporting, including related clerical expenses.

Kenbob, Inc., an investment advisory firm, is the sole general partner of CGM and is controlled by Ken Heebner. CGM currently also acts as investment adviser to CGM Focus Fund and CGM Mutual Fund and one other mutual fund portfolio. CGM also provides investment advice to other institutional clients.

Certain officers and trustees of the Fund also serve as officers, directors or trustees of other investment companies advised by CGM. The other investment companies and clients served by CGM sometimes invest in securities in which the Fund also invests. If the Fund and such other investment companies or clients advised by CGM desire to buy or sell the same portfolio securities at the same time, purchases and sales will be allocated to the extent practicable on a pro rata basis in proportion to the amounts desired to be purchased or sold for each. It is recognized that in some cases the practices described in this paragraph could have a detrimental effect on the price or amount of the securities which the Fund purchases or sells. In other cases, however, it is believed that these practices may benefit the Fund. It is the opinion of the trustees that the desirability of retaining CGM as adviser for the Fund outweighs the disadvantages, if any, which might result from these practices.

Custodial Arrangements

State Street Bank and Trust Company ("State Street Bank"), Boston, Massachusetts 02111, is the Fund's custodian. As such, State Street Bank holds in safekeeping certificated securities and cash belonging to the Fund and, in such capacity, is the registered owner of securities held in book entry form belonging to the Fund. Upon instruction, State Street Bank receives and delivers cash and securities of the Fund in connection with Fund transactions and collects all dividends and other distributions made with respect to Fund portfolio securities. State Street Bank also maintains certain accounts and records of the Fund and calculates the total net asset value, total net income, and net asset value per share of the Fund on each business day.

Independent Registered Public Accounting Firm

The Fund's independent registered public accounting firm is PricewaterhouseCoopers LLP, 125 High Street, Boston, Massachusetts 02110. PricewaterhouseCoopers LLP conducts an annual audit of the Fund's financial statements, reviews the Fund's federal and state income tax returns and consults with the Fund as to matters of accounting and federal and state income taxation. The information concerning financial highlights in the Prospectus, and the financial statements incorporated by reference into this Statement, have been so included in reliance on the reports of PricewaterhouseCoopers LLP, an independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting.

Other Arrangements

Certain office space, facilities, equipment and administrative services for the Fund and other mutual funds under the investment management of the CGM organization are furnished by CGM. In addition, CGM provides bookkeeping, accounting, auditing, financial recordkeeping, related clerical and compliance services for which it is entitled to be reimbursed by the Fund based on the cost of providing these services. For services rendered to the Fund for the fiscal years ended December 31, 2008, 2009 and 2010, CGM was reimbursed \$246,255, \$232,775 and \$294,452, respectively.

Codes of Ethics

The Fund and CGM each have adopted a Code of Ethics pursuant to Rule 17j-1 under the 1940 Act. These Codes of Ethics permit personnel of the Fund and CGM, under certain circumstances, to invest in securities, including securities that may be purchased or held by the Fund. However, the Codes of Ethics contain provisions and requirements designed to identify and address certain conflicts of interest between personal investment activities and the interests of the Fund. There can be no assurance that the Codes of Ethics will be effective in identifying and addressing all conflicts of interest relating to personal securities transactions.

PORTFOLIO MANAGER

Mr. Ken Heebner has been the portfolio manager of the Fund since its inception. In addition to the Fund, Mr. Heebner is responsible for managing accounts for registered investment companies, as well as separate accounts. None of these accounts are assessed a performance-based advisory fee. Mr. Heebner is also responsible for managing one other pooled investment vehicle which pays a performance based advisory fee to CGM. The table below identifies, as of December 31, 2010, the total number of accounts managed by Mr. Heebner and the assets attributable to such accounts within each of the following categories: registered investment companies, other pooled investment vehicles and other accounts.

Category	Total Number of Accounts Managed Within Category	Total Assets of Accounts Within Category
Registered Investment Companies	4	\$6,476,000,000
Other Pooled Investment Vehicles	1	\$105,000,000
Other Accounts	11	\$468,000,000

Mr. Heebner receives a fixed salary from CGM. In addition, after a limited partner of CGM receives a guaranteed payment equal to 22.5% of CGM's revenues, Mr. Heebner's compensation is directly related to the profitability of CGM and based upon his shareholding in the general partner of CGM.

Actual or apparent conflicts of interest may arise when a portfolio manager has day-to-day management responsibilities with respect to more than one registered investment company, other pooled investment vehicles or other accounts. For example, the management of multiple accounts may present a portfolio manager with a potential conflict of interest in allocating his time among accounts. Although Mr. Heebner is not required to devote a specific percentage of time to the Fund or to any other account, Mr. Heebner endeavors to allocate his time fairly among the (i) Fund, (ii) each of the three other registered investment companies he manages, (iii) the other pooled investment vehicle that he manages and (iv) the separate accounts he manages, taken together as a group. The separate accounts are grouped together as they are managed in a substantially similar style. In addition, the management of multiple accounts may present a portfolio manager with a potential conflict of interest in allocating limited investment opportunities that are suitable for multiple accounts.

Conflicts of interest may also arise where the structure of financial or other benefits available to an adviser or a portfolio manager differs among the multiple accounts that they manage. The other pooled investment vehicle managed by CGM pays a performance-based advisory fee which may create an incentive to favor this account over other accounts managed by CGM. However, Mr. Heebner has assured the trustees of the Fund that he will, in all cases, treat the Fund fairly.

In addition, CGM has adopted order aggregation, trade allocation and other policies and procedures to ensure that, among other things, accounts managed by CGM participate in trades in a fair way.

Information regarding Mr. Heebner's ownership of Fund Securities is set forth under "Management of the Fund."

PORTFOLIO TRANSACTIONS AND BROKERAGE

In placing orders for the purchase and sale of portfolio securities for the Fund, CGM always seeks best execution. CGM will select broker-dealers or use automated trading systems that will execute securities transactions for the Fund in such a manner that the Fund's total costs or proceeds in each transaction are the most favorable under the circumstances and, in selecting such broker-dealers or automated trading systems, CGM will consider all factors it deems relevant, including: (a) the nature and character of the security or instrument being traded and the markets on which it is purchased or sold; (b) the desired timing of the transaction; (c) CGM's knowledge of negotiated commission rates and spreads currently available; (d) the activity existing and expected in the market for the particular security or instrument; (e) the full range of brokerage services provided; (f) the broker's or dealer's capital strength and stability, including the willingness to commit capital with respect to a particular transaction, as well as its execution, clearance and settlement capabilities; (g) the quality of the research and research services provided; (h) the reasonableness of the commission or its equivalent for the specific transaction; and (i) CGM's knowledge of any actual or apparent operational problems of a broker-dealer.

The determinative factor in the selection of a broker or dealer will not be the lowest possible commission cost but whether the broker's or dealer's likely execution of the transaction represents the best qualitative execution for the client's account. Transactions in unlisted securities will be carried out through broker-dealers who make the primary market for such securities unless, in the judgment of CGM, a more favorable execution can be obtained by carrying out such transactions through other brokers.

Portfolio managers and trading personnel of CGM may utilize the following guidelines, among others, to gauge the level of service provided by the broker-dealers in an attempt to ensure that best execution is achieved:

- i. whether the price level provided by the broker/dealer on each transaction is competitive and fair relative to the market and CGM's competitors;
- ii. whether the commission level charged by the broker/dealer is competitive and reasonable taking into account the size and difficulty of the transaction, the liquidity of the security, and the price of the security;
- iii. whether certain broker/dealers have specialization in a particular security type;
- iv. whether CGM has a strong relationship with a broker/dealer;

- v. whether the broker/dealer has the ability to obtain liquidity, complete trades, engage in unique trading strategies, execute trades quickly, satisfy CGM's trading needs, and maximize opportunities for price improvement;
- vi. whether certain broker/dealers have proven to be dependable and reliable over time;
- vii. whether certain broker/dealers assure that they will hold CGM trading strategy and positions in confidence;
- viii. whether certain broker/dealers provide more accurate and timely execution and are quicker to resolve settlement errors and disputes;
- ix. whether broker/dealers that have adequate resources to support the business have demonstrated an investment in, and commitment to, technology and a quality trading system;
- x. whether a broker/dealer is willing to commit the firm's capital in order to complete a particular transaction; and
- xi. whether the quality of the research provided by the broker/dealer is better than the research material provided by other broker/dealers (CGM trading personnel receive a list of those firms who have provided valued research services as well as a firm commission goal which the trading personnel are requested to meet or exceed if it can be achieved within the context of all other best execution criteria).

The Fund will not pay a broker a commission at a higher rate than is otherwise available for the same transaction in recognition of the value of research services provided by the broker or in recognition of the value of any other services provided by the broker which do not contribute to the best price and execution of the transaction. Receipt of research services from brokers may sometimes be a factor in selecting a broker which CGM believes will provide the best price and execution for a transaction. These research services include reports on the economy, industries, sectors and individual companies or issuers; statistical information; accounting and tax law interpretations; political analyses; global geopolitical research; reports on legal developments affecting portfolio securities; information on technical market actions; credit analyses; on-line quotation and trading systems; risk measurement; analyses of corporate responsibility issues; on-line news services; and financial and market database services. Although it is not possible to assign an exact dollar value to these services, they may, to the extent used, tend to reduce CGM's expenses. Such services may be used by CGM in servicing other client accounts and in some cases may not be used with respect to the Fund.

CGM may pay periodic maintenance fees to brokers that make the Fund's shares available to their clients. The Fund will not be responsible for any such fees.

In 2010, brokerage transactions of the Fund aggregating \$3,755,169,055 were allocated to brokers providing research services and \$4,431,037 in commissions were paid on these

transactions. During the fiscal years ended December 31, 2008, 2009 and 2010, the Fund paid total brokerage fees of \$7,818,964, \$5,728,244 and \$4,431,037, respectively. The variation in the Fund's brokerage commissions is substantially attributable to increased portfolio activity as a result of changes in the size of the Fund.

DESCRIPTION OF THE TRUST

The Declaration of Trust of the Trust currently permits the trustees to issue an unlimited number of shares of beneficial interest of separate series of the Trust. Interests in the portfolio described in the Prospectus and in this Statement are represented by shares of the Fund. Each share of the Fund represents an interest in such series which is equal to and proportionate with the interest represented by each other share. The shares of the Fund do not have any preemptive rights. Upon liquidation of the portfolio, shareholders of the Fund are entitled to share pro rata in the net assets of such portfolio available for distribution to shareholders. The Declaration of Trust also permits the trustees to charge shareholders directly for custodial, transfer agency and servicing expenses. The trustees have no present intention of making such direct charges.

The Declaration of Trust also permits the trustees, without shareholder approval, to create one or more additional series or classes of shares or to reclassify any or all outstanding shares as shares of particular series or classes, with such preferences and rights and eligibility requirements as the trustees may designate. While the trustees have no current intention to exercise the power to establish separate classes of the existing series of the Trust, it is intended to allow them to provide for an equitable allocation of the impact of any future regulatory requirements, which might affect various classes of shareholders differently. The trustees may also, without shareholder approval, merge two or more existing series.

Shareholder Rights

Shareholders are entitled to one vote for each full share held (with fractional votes for fractional shares held) and may vote (to the extent provided herein) on the election of trustees of the Trust and on other matters submitted to the vote of shareholders. There will normally be no meetings of shareholders for the purpose of electing trustees, except that in accordance with the 1940 Act (i) the Trust will hold a shareholders' meeting for the election of trustees at such time as less than a majority of the trustees holding office have been elected by shareholders, and (ii) if the appointment of a trustee to fill a vacancy in the Board of Trustees would result in less than two-thirds of the trustees having been elected by the shareholders, that vacancy may only be filled by a vote of the shareholders. In addition, trustees may be removed from office by a written consent signed by the holders of two-thirds of the outstanding shares and filed with the Trust's custodian or by a vote of the holders of two-thirds of the outstanding shares at a meeting duly called for the purpose, which meeting shall be held upon the written request of the holders of not less than 10% of the outstanding shares. Upon written request by ten or more shareholders of record who have been such for at least six months and who hold in the aggregate shares equal to at least the lesser of (i) \$25,000 in net asset value or (ii) 1% of the outstanding shares, stating that shareholders wish to communicate with the other shareholders for the purpose of obtaining the signatures necessary to demand a meeting to consider removal of

a trustee, the Trust will either provide access to a list of shareholders or disseminate appropriate materials (at the expense of the requesting shareholders). Except as set forth above, the trustees shall continue to hold office and may appoint successor trustees. Voting rights are not cumulative.

No amendment may be made to the Declaration of Trust without the affirmative vote of a majority of the holders of the outstanding shares of the Trust except (i) to change the Trust's name or to cure technical problems in the Declaration of Trust and (ii) to establish, designate or modify new and existing series or subseries of Trust shares or other provisions relating to Trust shares in response to applicable laws or regulations. The shareholders of the Fund shall not be entitled to vote on matters exclusively affecting any other series, such matters including, without limitation, the adoption of or change in the investment objectives, policies or restrictions of the series and the approval of the investment advisory contracts of the series. Similarly, no shareholders of any other series shall be entitled to vote on any such matters exclusively affecting the Fund. In particular, the phrase "majority of the outstanding voting securities of the Fund" as used in this Statement shall refer only to the shares of the Fund.

Shareholder and Trustee Liability

Under Massachusetts law, shareholders could, under certain circumstances, be held personally liable for the obligations of the Trust; however, the Declaration of Trust disclaims shareholder liability for acts or obligations of the Trust and requires that notice of such disclaimer be given in each agreement, obligation or instrument entered into or executed by the Trust or trustees. The Declaration of Trust provides for indemnification out of Fund property for all losses and expenses of any shareholder held personally liable for the obligations of the Trust. Thus, the risk of a shareholder incurring financial loss on account of shareholder liability is considered remote since it is limited to circumstances in which the disclaimer is inoperative and the Fund itself would be unable to meet its obligations.

The Declaration of Trust further provides that the trustees will not be liable for errors of judgment or mistakes of fact or law. However, nothing in the Declaration of Trust protects a trustee against any liability to which the trustee would otherwise be subject by reason of willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his office.

In addition to the foregoing, the Declaration of Trust provides that the appointment, designation or identification of a trustee as a member or chairperson of a committee or sub-committee of the trustees or any function of such a committee or sub-committee, an expert on any topic or in any area (including an audit committee financial expert), or the lead or head independent trustee, or any other special appointment, designation or identification of a trustee, will not impose on that person any duty, obligation or liability that is greater than the duties, obligations and liabilities imposed on that person as a trustee in the absence of the appointment, designation or identification (provided that this limitation does not apply to duties expressly imposed pursuant to the By-Laws of the Trust, a charter of a committee or sub-committee of the Board of Trustees or by a vote of the Board of Trustees).

The By-Laws of the Trust provide for indemnification by the Trust of the trustees and officers and former trustees and officers of the Trust except with respect to any matter as to which it has been finally adjudicated that such person did not act in good faith in the reasonable belief that such action was in the best interests of the Trust. No officer or trustee or former officer or trustee may be indemnified against any liability to the Trust or the Trust's shareholders to which such person would otherwise be subject by reason of willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his or her office.

All persons dealing with the Fund must look only to the assets of the Fund for the enforcement of any claims against the Fund and no other series of the Trust assumes any liability for obligations entered into on behalf of the Fund.

PERFORMANCE INFORMATION COMPARISONS

The performance of the Fund may be compared against certain widely acknowledged standards or indexes for stock and bond market performance, some of which are described below, or against the U.S. Bureau of Labor Statistics' Consumer Price Index.

The Standard & Poor's 500 Index (the "S&P 500 Index") is a market value-weighted and unmanaged index showing the changes in the aggregate market value of 500 stocks relative to the base period 1941-43. The S&P 500 Index is composed almost entirely of common stocks of companies listed on the New York Stock Exchange, although the common stocks of a few companies listed on the NYSE AMEX (formerly, the American Stock Exchange) or traded over-the-counter are included.

The Dow Jones Industrial Average is a market value-weighted and unmanaged index of 30 large industrial stocks traded on the New York Stock Exchange.

Performance of the S&P 500 Index and the Dow Jones Industrial Average does not reflect deductions for fees, expenses or taxes. An investor cannot invest directly in an index.

The Consumer Price Index, published by the U.S. Bureau of Labor Statistics, is a statistical measure of change, over time, in the prices of goods and services in major expenditure groups.

Lipper Inc. (formerly, Lipper Analytical Services, Inc.) is an independent service that provides research on over 115,000 mutual funds worldwide. From time to time, the Fund may include its ranking among mutual funds tracked by Lipper in advertisements or sales literature.

Morningstar, Inc. ("Morningstar") is an independent mutual fund ranking service. Morningstar proprietary ratings reflect historical risk-adjusted performance and are subject to change every month. Morningstar rates mutual funds from one to five stars based on how well they have performed (after adjusting for risk and accounting for all sales charges) in comparison with similar funds. From time to time, the Fund may include its ranking among mutual funds tracked by Morningstar in advertisements or sales literature.

Value Line, Inc. ("Value Line"), is an independent mutual fund ranking service that reviews the performance of mutual funds. Value Line uses a dual ranking system whereby each fund receives an Overall Rank, measuring various performance criteria taking risk into account, and a Risk Rank, to show the total level of risk the fund has assumed. Funds are ranked from 1 to 5, with 1 being the Highest Overall Rank (the best risk adjusted performance) and the best Risk Rank (the least risky). From time to time, the Fund may include ranking information provided by Value Line in advertisements and sales literature.

The Fund may compare its total return or yield or both to that of the FTSE NAREIT Equity REITs Index.

From time to time, programs and articles about the Fund regarding performance, rankings and other characteristics of the Fund, information about persons responsible for its portfolio management, and information about the characteristics and performance of the real estate industry, REITs and mutual funds that invest in real estate securities may appear on television and in national publications and major metropolitan newspapers including, but not limited to, CNBC, PBS, Bloomberg, The Wall Street Journal, The Boston Globe, The New York Times, Barron's, Forbes, Fortune, Money, U.S. News and World Report, Kiplinger's Personal Finance and Business Week magazines. In particular, some or all of these media may publish their own rankings or performance reviews of mutual funds, including the Fund. References to or reprints of, or quotations from, such articles may be used in the Fund's promotional literature. The Fund may also include in its advertising and sales literature information concerning the experience of Mr. Heebner, the Fund's portfolio manager, in managing other mutual funds and private accounts, including ranking and rating information about such funds.

NET ASSET VALUE AND PUBLIC OFFERING PRICE

The method for determining the public offering price and net asset value per share is summarized in the Prospectus under "Pricing of Shares."

The net asset value of a share of the Fund is determined by dividing the Fund's total net assets (the excess of its assets over its liabilities) by the total number of shares outstanding and rounding to the nearest cent. Such determination is made as of the close of normal trading on the New York Stock Exchange on each day on which the Exchange is open for unrestricted trading, and no less frequently than once daily on each day during which there is sufficient trading in the Fund's portfolio securities that the value of the Fund's shares might be materially affected. During the 12 months following the date of this Statement, the New York Stock Exchange is currently expected to be closed on the following holidays: Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day, New Year's Day, Martin Luther King, Jr. Day, Presidents' Day and Good Friday.

Equity securities are valued on the basis of valuations furnished by a pricing service, authorized by the Board of Trustees. Equity securities listed or regularly traded on a securities exchange or in the over-the-counter (OTC) market are valued at the last quoted sale price or, for certain markets, the official closing price at the time the valuations are made. A security that is listed or traded on more than one exchange is valued at the

quotation on the exchange determined to be the primary market for such security. For securities with no sale reported the last reported bid price is used. Corporate debt securities are valued on the basis of valuations furnished by a pricing service, authorized by the Board of Trustees, which determines valuations for normal, institutional-size trading units of such securities using market information, transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders. United States government debt securities are valued at the current closing bid, as last reported by a pricing service approved by the Board of Trustees. Short-term investments having a maturity of sixty days or less are stated at amortized cost, which approximates value. Other assets and securities which are not readily marketable will be valued in good faith at fair value using methods determined by the Board of Trustees.

HOW TO PURCHASE SHARES

The procedures for purchasing shares of the Fund are summarized in the Prospectus under "How to Purchase Shares."

SHAREHOLDER SERVICES

Please be sure to keep copies of any documents you send to the Fund. Once received, these documents become the property of the Fund and will not be returned.

Signature Validation Program

Changes to some account options (e.g. Systematic Withdrawal Plan ("SWP"), Automatic Investment Plan ("AIP"), Telephone Investment Plan ("TIP")) require that you obtain a Signature Validation Program ("SVP") stamp of your signature. This stamp may be obtained from eligible members of a Medallion Signature Guarantee Program or other eligible guarantor institutions in accordance with SVP. Eligible guarantor institutions generally include banks, broker/dealers, credit unions, members of national securities exchanges, registered securities associations, clearing agencies and savings associations. You should verify with the institution that they are an eligible guarantor institution prior to signing. A notary public can not provide an SVP stamp.

Open Accounts

A shareholder's investment in the Fund is credited to an open account maintained for the shareholder by the CGM Shareholder Services Department ("CGM Shareholder Services") of Boston Financial Data Services, Inc. ("BFDS"), the shareholder servicing agent for State Street Bank. The address is: CGM Shareholder Services, c/o BFDS, P.O. Box 8511, Boston, MA 02266-8511, or by overnight mail to: 30 Dan Road, Canton, MA 02021-2809. CGM makes available retirement plan forms and prototype plan documents for tax deferred Money Purchase Pension or Profit Sharing Plans, as well as SEP-IRAs and Traditional and Roth IRAs established under retirement plans sponsored by CGM ("CGM Retirement Plans"). In this SAI, CGM Retirement Plans other than Traditional IRAs, Roth IRAs and SEP-IRAs are referred to as "CGM Qualified Retirement Plans."

Following each transaction in the account, a shareholder will receive an account statement disclosing the current balance of shares owned and the details of recent transactions that have taken place during the year. After the close of each fiscal year, CGM Shareholder Services will send each shareholder a statement providing federal tax information on dividends and distributions paid to the shareholder during the year. The year-end statement should be retained as a permanent record. Shareholders will be charged a fee for duplicate information.

Certificates representing shares are issued only upon written request to CGM Shareholder Services but are not issued for fractional shares. The open account system permits the purchase of full and fractional shares and, by making the issuance and delivery of certificates representing shares unnecessary, eliminates problems of handling and safekeeping, and the cost and inconvenience of replacing lost, stolen, mutilated or destroyed certificates. To replace a lost certificate, the shareholder is required to (a) pay a surety bond of 2% of the current value of the lost certificate or a minimum of \$25, and (b) complete, sign (with all signatures notarized) and return an Affidavit of Loss Form X-17F-1A. The Affidavit of Loss is available by contacting CGM Shareholder Services at 800-343-5678.

The costs of maintaining the open account system are borne by the Fund, and no direct charges are made to shareholders. Although the Fund has no present intention of making such direct charges to shareholders, it reserves the right to do so. Shareholders will receive prior notice before any such charges are made.

Systematic Withdrawal Plans ("SWP")

A Systematic Withdrawal Plan, referred to in the Prospectus under "Shareholder Services – Systematic Withdrawal Plan," provides for monthly, bi-monthly, quarterly, semi-annual or annual withdrawal payments of \$50 or more from the non-fiduciary account of a shareholder provided that the account has a value of at least \$10,000 at the time the plan is established and has all dividend and capital gains reinvested. A shareholder may establish a SWP by completing a CGM Service Options Form with an SVP stamp. The SWP is not available to omnibus accounts. Systematic withdrawals taken from CGM Retirement Plans require specific instruction. Please contact CGM Shareholder Services at 800-343-5678.

Payments will be made either to the shareholder or to any other person or entity designated by the shareholder. If payments are issued to an individual other than the registered owner(s) and/or mailed to an address other than the address of record, an SVP stamp will be required on the appropriate form. Shares to be included in a SWP must be held in an open account rather than certificated form. Income dividends and capital gain distributions will be reinvested at the net asset value determined as of the close of the New York Stock Exchange on the record date for the dividend or distribution. If withdrawal checks are returned to the Fund as "undeliverable" or remain uncashed for more than six months, the shareholder's SWP will be cancelled, such undeliverable or uncashed checks will be cancelled and such amounts reinvested in the Fund at the per share net asset value determined as of the date of cancellation of the checks. Special

rules apply to fiduciary accounts. Please call CGM Shareholder Services at 800-343-5678 for more information.

Since withdrawal payments represent in whole or in part proceeds from the liquidation of shares, the shareholder should recognize that withdrawals may reduce and possibly exhaust the value of the account, particularly in the event of a decline in net asset value. Accordingly, the shareholder should consider whether a SWP and the specified amounts to be withdrawn are appropriate in the circumstances. The Trust makes no recommendations or representations in this regard. For federal income tax purposes, a withdrawal under a SWP constitutes a sale of shares, which may result in a taxable gain or loss. It may be appropriate for the shareholder to consult a tax adviser before establishing such a plan. See "Income Dividends, Capital Gains Distributions and Tax Status" below for certain information as to federal income taxes.

Exchange Privilege

A shareholder may exchange shares of the Fund for shares of other CGM Funds. The value of shares exchanged must be at least \$1,000 and all exchanges are subject to the minimum investment requirements of the Fund into which the exchange is being made. This option is summarized in the Prospectus under "Shareholder Services — Exchange Privilege." Exchange requests cannot be revoked once they have been received in good order. As described in the Prospectus, frequent trading can negatively impact Fund performance and shareholders. Therefore, the Fund limits the number of exchanges a shareholder can make to four exchanges per account (or two round trips out of the Fund and back again) per calendar year. The Fund also reserves the right to prohibit exchanges during the first 15 days following an investment in the Fund. A shareholder may exercise the exchange privilege only when the fund into which shares will be exchanged is registered or qualified in the state in which such shareholder resides.

Exchanges may be made on any day the New York Stock Exchange is open. Exchanges may be effected by (i) a telephone request to CGM Shareholder Services at 800-343-5678, provided a special authorization form is on file with the Trust, or (ii) a written exchange request to CGM Shareholder Services. Exchange requests must be received prior to the close of the New York Stock Exchange (normally 4:00 p.m. Eastern time). Telephone exchange requests will not be accepted after the close of the New York Stock Exchange. If a written exchange request is received after the close of the New York Stock Exchange, it will be priced at the net asset value determined on the next business day.

The Trust reserves the right to modify this exchange privilege without prior notice, except as otherwise required by law or regulation. In addition, under applicable anti-money laundering regulations, exchange requests may be suspended, restricted, cancelled, or processed with proceeds withheld.

For federal income tax purposes, an exchange constitutes a sale of shares, which may result in a taxable gain or loss.

Automatic Investment Plan ("AIP")

Once initial investment minimums have been satisfied (see "How to Purchase Shares" in the Prospectus), a shareholder may participate in an AIP, pursuant to which the Fund debits \$50 or more on or about the same date each month, or twice per month, from a shareholder's checking account and transfers the proceeds into the shareholder's Fund account. To participate, a shareholder must authorize the Fund and its agents to initiate Automated Clearing House ("ACH") debits against the shareholder's designated checking account at a bank or other financial institution. Please contact CGM Shareholder Services at 800-343-5678 to determine the requirements associated with debits from savings banks and credit unions.

Telephone Investment Plan ("TIP")

Once initial investment minimums have been satisfied (see "How to Purchase Shares" in the prospectus), investments of at least \$50 may be made by telephone by calling CGM Shareholder Services at 800-343-5678. A telephone purchase is made with funds drawn via ACH from your pre-designated U.S. bank account. The trade date for a telephone purchase will generally be the business/banking day of your request, provided your request is received by CGM Shareholder Services prior to the close of the New York Stock Exchange, normally 4 p.m. Eastern time. If you telephone your purchase request after the Exchange closes or on a day when the Exchange is not open for business, the Fund cannot accept your request and a new one will be necessary.

General Information Relating to the AIP and TIP

Shareholders receive a confirmation of each purchase of Fund shares under the AIP or TIP. If a shareholder elects to redeem shares of the Fund purchased under the AIP or TIP within 15 calendar days of such purchase, the shareholder may experience delays in receiving redemption proceeds. See "All Redemptions."

Once a shareholder enrolls in the AIP or TIP, the Fund and its agents are authorized to initiate ACH debits against the shareholder's account payable to the order of The CGM Funds. Such authority remains in effect until revoked by the shareholder, and, until the Fund actually receives such notice of revocation, the Fund is fully protected in initiating such debits. Participation in the AIP or TIP may be terminated or changed by sending written notice to CGM Shareholder Services, c/o BFDS, P.O. Box 8511, Boston, MA 02266-8511, or by calling 800-343-5678 more than 14 days prior to the next scheduled debit date. The Fund may terminate a shareholder's participation in the AIP or TIP immediately in the event that any item is unpaid by the shareholder's financial institution. The Fund may terminate or modify the AIP or TIP at any time.

Retirement Plans

Under "Shareholder Services — Retirement Plans" the Prospectus refers to several CGM Retirement Plans. These plans may be funded with shares of the Fund.

For CGM Retirement Plans, all income dividends and capital gain distributions of plan participants must generally be reinvested. Plan documents and further information can be obtained from the Trust by writing or calling the Trust as indicated on the cover of this Statement. Retirement Plan fees currently include a \$5 set-up fee per plan type, a \$15 annual maintenance fee per account and a \$5 close-out fee per account. CGM may receive a portion of the annual maintenance fee and close-out fee as reimbursement for its maintenance of certain fiduciary retirement plan accounts.

Check with your financial or tax adviser as to the suitability of Fund shares for your retirement plan.

Transfer on Death Accounts

The Fund generally permits "transfer on death" ("TOD") registration of shares. Upon the death of the registered owner(s) the shares are transferred to a designated beneficiary or beneficiaries upon receipt of notification of death and written instructions, in good order, from the beneficiary or beneficiaries. To open a TOD account please follow the instructions in the Fund application or call 800-343-5678. Please note that the TOD option for a joint account becomes effective upon the death of *all* of the registered owners. At that time the listed beneficiary becomes the owner of the account. The beneficiary for a joint account must be the same for all owners.

The terms of TOD registrations and accounts are governed by certain TOD rules ("TOD Rules"). Please contact CGM Shareholder Services, c/o BFDS, P.O. Box 8511, Boston, MA 02266-8511, or call 800-343-5678, for a copy of the TOD Rules. By opening a TOD account, you agree to be bound by the TOD Rules.

Address Changes

Shareholders can request that their address of record be changed either by telephone or in writing (by mail or delivery service, but not by facsimile or e-mail) in accordance with the policies and procedures of the Trust. After an address change is made, no telephone or written redemption requests will be honored for 60 days (does not apply to required minimum distributions ("RMDs")), unless the request includes an SVP stamp of the registered owner's signature. Written requests for a change of address may be mailed to: CGM Shareholder Services, c/o BFDS, P.O. Box 8511, Boston, MA 02266-8511.

If a statement or check sent to a shareholder is returned three times, mailings to the shareholder may be discontinued until the shareholder contacts CGM Shareholder Services with correct address information.

Medallion Signature Guarantees

Certain redemption requests require a Medallion Signature Guarantee from an eligible guarantor institution. Eligible guarantor institutions generally include banks, broker/dealers, credit unions, members of national securities exchanges, registered securities associations, clearing agencies and savings associations. You should verify with the institution that they are an eligible guarantor institution prior to signing. An SVP stamp is not acceptable for a

redemption request that requires a Medallion Signature Guarantee. A notary public can not provide a Medallion Signature Guarantee.

REDEMPTIONS

The procedures for redemption of Fund shares are summarized in the Prospectus under "How to Sell Shares."

Except as noted below, signatures on redemption requests must have a Medallion Signature Guarantee.

As noted in the Prospectus, a Medallion Signature Guarantee will not be required if the proceeds of the redemption do not exceed \$50,000, or the proceeds check is made payable to the registered owner(s) and mailed to the address of record, which has not changed in the prior 60 days. If the address of record has changed within the prior 60 days, a Medallion Signature Guarantee will be required (does not apply to RMDs). This policy applies to both written and telephone redemption requests.

Redeeming by Telephone

There are three ways to redeem by telephone. In each case, a shareholder should call 800-343-5678 prior to 4:00 p.m. Eastern time (on a regular business day). Requests made after that time or on a day when the New York Stock Exchange is not open for business cannot be accepted. Telephone redemptions are not available for CGM Qualified Retirement Plans.

Check Sent to the Address of Record

A shareholder may request that a check be sent to the address of record on the account, provided that the address has not changed within the prior 60 calendar days (does not apply to RMDs) and the shareholder is redeeming \$50,000 or less. Except in the case of a CGM Qualified Retirement Plan, the option of telephone redemption by check is available to shareholders automatically unless this option is declined in the application or in writing. The check will be made payable to the registered owner(s) of the account.

If checks representing redemption proceeds are returned "undeliverable" or remain uncashed for six months, such checks may be cancelled and such proceeds shall be reinvested in the Fund at the per share net asset value determined as of the date of cancellation of such checks. Special rules apply to fiduciary accounts. Please call CGM Shareholder Services at 800-343-5678 for more information.

Proceeds Wired to a Pre-designated Bank

Except in the case of a CGM Qualified Retirement Plan, a shareholder may request that the redemption proceeds be wired to the bank account designated on the Fund application or subsequently on a CGM Service Options Form (with an SVP stamp) available from the Trust or CGM Shareholder Services. A nominal wire fee, currently \$5, is deducted from the proceeds. When selecting the service, a shareholder must designate a bank account to

which the redemption proceeds should be wired. Any change in the bank account so designated may be made by furnishing CGM Shareholder Services a completed CGM Service Options Form with an SVP stamp. Whenever a CGM Service Options Form is used, the shareholder's signature must receive an SVP stamp as described above. Telephone redemptions may be made only if an investor's bank is a member of the Federal Reserve System or has a correspondent bank that is a member of such System. If the account is with a savings bank, it must have only one correspondent bank that is a member of the System. If wire redemption proceeds are rejected by the pre-designated bank, the Fund may, in its discretion, re-wire the proceeds, issue a check for the proceeds, or reinvest the proceeds in the Fund at the per share net asset value determined as of the date of the reinvestment.

Proceeds Sent by ACH to a Pre-designated Bank

Except in the case of a CGM Qualified Retirement Plan, a shareholder may request that the redemption proceeds be sent by ACH to the bank account designated on the Fund application or subsequently on a CGM Service Options Form (with an SVP stamp) available from the Trust or CGM Shareholder Services. When selecting the service, a shareholder must designate a bank account to which the redemption proceeds should be sent. Any change in the bank account so designated may be made by furnishing CGM Shareholder Services a completed CGM Service Options Form with an SVP stamp. Whenever a CGM Service Options Form is used, the shareholder's signature must receive an SVP stamp as described above. Telephone ACH redemptions may be made only if an investor's bank offers such a service and is a member of the Federal Reserve System or has a correspondent bank that is a member of such System. If the account is with a savings bank, it must have only one correspondent bank that is a member of the System. If ACH proceeds are rejected by the pre-designated bank, the Fund may, in its discretion, re-send the proceeds by ACH, issue a check for the proceeds, or reinvest the proceeds in the Fund at the per share net asset value determined as of the date of the reinvestment.

All Redemptions

The redemption price will be the net asset value per share next determined after the redemption request is received by CGM Shareholder Services in good order (including any necessary documentation). Redemption requests cannot be revoked once they have been received in good order. Under applicable anti-money laundering regulations, redemption requests may be suspended, restricted, cancelled, or processed with proceeds withheld. Proceeds resulting from a written redemption request will normally be mailed or wired to you within seven calendar days after receipt of your request in good order. Telephone redemption proceeds will normally be mailed, wired or sent by ACH within seven calendar days following receipt of a proper redemption request. If you purchased your Fund shares by check (or through your AIP or TIP) and elect to redeem shares within 15 calendar days of such purchase, you may experience delays in receiving redemption proceeds. The Trust will process your redemption request upon receipt of a request in good order. However, the Trust will generally postpone sending your redemption proceeds from such investment until it can verify that your check (or AIP or TIP purchase) has been or will be collected. Under ordinary circumstances, the Trust can not verify collection of individual checks (or AIP or TIP purchases) and may therefore automatically hold proceeds from redemptions

requested during the 15 calendar day period following such investment for a total of up to seven calendar days. There will be no such automatic delay following investments paid for by federal funds wire or by bank cashier's check, certified check or treasurer's check although the Trust may in any case postpone payment of redemption proceeds for up to seven calendar days.

The Trust will normally redeem shares for cash; however, the Trust reserves the right to pay the redemption price wholly in kind or partly in kind and partly in cash if the Board of Trustees of the Trust determines it to be advisable in the interest of the remaining shareholders. If portfolio securities are distributed in lieu of cash, the shareholder will normally incur brokerage commissions upon subsequent disposition of any such securities. However, the Trust has elected to be governed by Rule 18f-1 under the 1940 Act pursuant to which the Trust is obligated to redeem shares solely in cash for any shareholder during any 90-day period up to the lesser of \$250,000 or 1% of the total net asset value of the Fund at the beginning of such period.

A redemption constitutes a sale of the shares for federal income tax purposes on which the investor may realize a taxable gain or loss. See "Income Dividends, Capital Gains Distributions and Tax Status."

Because the expense of maintaining small accounts is disproportionately high, the Trust may close accounts with 20 shares or fewer and mail the proceeds to the shareholder. Shareholders who are affected by this policy will be notified of the Trust's intention to close the account, and will have 60 days immediately following the notice in which to acquire the requisite number of shares. The minimum does not apply to retirement and Uniform Gifts to Minors Act or Uniform Transfers to Minors Act accounts.

PURCHASES AND REDEMPTIONS THROUGH CERTAIN BROKERS

The Trust has authorized certain brokers, and these brokers have been authorized to designate intermediaries, to accept on its behalf purchase and redemption orders. The Fund will be deemed to have received such an order when the broker or broker designee accepts the order, which shall be priced at the net asset value next computed after the broker or designee accepts the order. Investors who buy, sell or exchange Fund shares through a broker or agent may be charged a fee by that broker or agent.

INCOME DIVIDENDS, CAPITAL GAINS DISTRIBUTIONS AND TAX STATUS

As described in the Prospectus under "Dividends, Capital Gains and Taxes", it is the policy of the Fund to pay quarterly, as dividends, substantially all net investment income, if any, and to distribute annually all net realized capital gains, if any, after offsetting any capital loss carryovers. At December 31, 2010, the Fund had available for tax purposes, capital loss carryovers of \$229,541,228 expiring December 31, 2017 and \$96,718,469 expiring December 31, 2016.

Income dividends and capital gain distributions are generally payable in full and fractional shares of the Fund based upon the net asset value determined as of the close of the New York Stock Exchange on the ex-dividend date for such dividend or distribution.

Shareholders may elect to receive their income dividends or capital gain distributions, or both, in cash. However, if a shareholder elects to receive capital gains in cash, his or her income dividends must also be received in cash. Shareholders can elect to receive payments of cash dividends and capital gains distributions either by check or by direct deposit to a bank account that they have pre-designated. These elections can be made at the time the account is opened and may be changed by the shareholder at any time by submitting a written request directly to CGM Shareholder Services or by calling 800-343-5678. However, changes in bank account information for direct deposits of cash dividends and capital gains distributions must be made through a CGM Service Options Form with an SVP stamp. In order for a change to be effective for any dividend or distribution, it must be received by CGM Shareholder Services at least five business days before the record date for such dividend or distribution. If a shareholder elects to receive distributions in cash and checks are returned "undeliverable" or remain uncashed for six months, such shareholder's cash election will be changed automatically and the shareholder's future dividend and capital gains distributions will be reinvested in the Fund at the per share net asset value determined as of the reinvestment date of the distribution. In addition, following such six month period, any undeliverable or uncashed checks will be canceled and such amounts reinvested in the Fund at the per share net asset value determined as of the date of cancellation of such checks.

The Fund is treated as a separate entity for federal income tax purposes under the Internal Revenue Code of 1986, as amended (the "Code"). The Fund has elected to be treated and intends to qualify each year as a "regulated investment company" under Subchapter M of the Code by meeting all applicable requirements of Subchapter M, including requirements as to the nature of the Fund's gross income, the amount of Fund distributions, and the composition of the Fund's portfolio assets.

As a regulated investment company, the Fund generally will not be subject to U.S. federal income or excise tax on its investment company taxable income (calculated without regard to the dividends-paid deduction) and net capital gain (the excess of net long-term capital gains over net short-term capital losses) to the extent that it distributes such income and gain to shareholders in accordance with the timing requirements imposed by the Code. If the Fund failed to qualify as a "regulated investment company" or failed to meet certain distribution requirements for any year, it would generally incur a regular corporate federal income tax on all of its taxable income, whether or not distributed, and Fund distributions would generally be taxable as ordinary dividend income to the shareholders.

Under certain circumstances, the Fund may be able to cure a failure to qualify as a regulated investment company, but in order to do so the Fund may incur significant Fund-level taxes and may be forced to dispose of certain assets. As long as it qualifies as a "regulated investment company" under the Code, the Fund will not be required to pay Massachusetts income or excise taxes.

The Fund intends to distribute to its shareholders, at least annually, substantially all of its investment company taxable income (calculated without regard to the dividends-paid deduction) and net capital gains. The Fund is subject to a nondeductible 4% excise tax to the extent that it does not distribute during each calendar year an amount equal to the sum of (1) at least 98% of its ordinary income (subject to certain modifications) for the calendar

year, (2) at least 98.2% of its capital gains in excess of its capital losses (adjusted for certain ordinary losses, as prescribed by the Code) for the calendar year, and (3) any ordinary income and capital gains for previous years that were not distributed during those years. The fund intends to make distributions in a timely manner and accordingly does not expect to be subject to the excise tax.

A distribution will be treated as paid by the Fund and received by the applicable shareholder on December 31 of a given calendar year if it is declared by the Fund in October, November or December, payable to shareholders of record in such a month, and is paid by the Fund during January of the following calendar year.

Shareholders of the Fund normally will have to pay federal income tax, and any state or local income taxes, on the dividends and capital gain distributions they receive from the Fund, whether the distributions are made in cash or additional shares. Distributions paid by the Fund from ordinary income (including dividends and interest) and net short-term capital gains will be taxable to shareholders as ordinary income for federal income tax purposes.

Distributions of ordinary dividends to the Fund's non-corporate shareholders may, in taxable years beginning on or before December 31, 2012, be treated as "qualified dividend income," which may qualify for a reduced tax rate, to the extent such distributions are derived from, and reported by the Fund as, "qualified dividend income," so long as the recipient and the Fund satisfy certain holding period requirements. If, in a taxable year beginning on or before December 31, 2012, 95% or more of the Fund's gross income (calculated without taking into account net capital gain derived from sales or other dispositions of stock or securities) consists of "qualified dividend income," the Fund may report, and the Fund's non-corporate shareholders may then treat, all distributions of such income as "qualified dividend income." "Qualified dividend income" generally is income derived from dividends from U.S. corporations or from "qualified foreign corporations," which are corporations that are either incorporated in a U.S. possession or eligible for benefits under certain U.S. tax treaties. "Passive foreign investment companies" ("PFICs") are not "qualified foreign corporations" for this purpose. Dividends from REITs will generally be treated as qualified dividend income only to the extent that the REIT derived its income from qualified dividend income. Distributions from a foreign corporation that is not in general a "qualified foreign corporation" may nevertheless be treated as "qualified dividend income" if the applicable stock is readily tradable on an established U.S. securities market.

The portion of the Fund's dividends that is derived from dividend income from U.S. corporations will normally be eligible for the dividends-received deduction for corporate shareholders if the recipient otherwise qualifies for that deduction with respect to its holding of Fund shares. Availability of the deduction for particular corporate shareholders is subject to certain limitations, and deducted amounts may be subject to the alternative minimum tax and may result in certain basis adjustments. Distributions that the Fund receives from REITs, and dividends paid by the Fund from such distributions, will not qualify for this deduction. If the Fund invests in certain high yield original issue discount obligations issued by corporations, a portion of the original issue discount accruing on the obligations may be eligible for the deduction for dividends received by corporations.

Distributions of net capital gain that are reported by the Fund as capital gain dividends are taxable as long-term capital gains for federal income tax purposes, regardless of the length of time shareholders have owned shares in the Fund.

To the extent that the Fund makes a distribution in excess of its current and accumulated earnings and profits, the distribution will be treated first as a tax-free return of capital, reducing the tax basis in a shareholder's shares, and then, to the extent the distribution exceeds such tax basis, as a taxable gain from the sale of such shares.

Dividends and distributions from the Fund, other than exempt-interest dividends, will generally be taken into account in determining a shareholder's "net investment income" for purposes of the Medicare contribution tax applicable to certain individuals, estates and trusts for taxable years beginning after December 31, 2012.

If the Fund meets certain distribution requirements, but chooses to retain some portion of its taxable income or gains, it generally will be subject to U.S. federal income tax at regular corporate rates on the amount retained. The Fund may designate certain amounts retained as undistributed net capital gain in a notice to its shareholders, who (i) will be required to include in income for U.S. federal income tax purposes, as long-term capital gain, their proportionate shares of the undistributed amount so designated, (ii) will be entitled to credit their proportionate shares of the income tax paid by the Fund on that undistributed amount against their federal income tax liabilities and to claim refunds to the extent such credits exceed their liabilities and (iii) will be entitled to increase their tax basis, for federal income tax purposes, in their shares by an amount equal to the excess of the amount of undistributed net capital gain included in their respective income over their respective income tax credits.

Any Fund distribution will have the effect of reducing the per share net asset value of shares in the Fund by the amount of the distribution. Shareholders purchasing shares shortly before the record date of a distribution may thus pay the full price for the shares and then effectively receive a portion of the purchase price back as a taxable distribution.

Upon the sale or other disposition of Fund shares by a shareholder that holds such shares as a capital asset, a shareholder may realize a capital gain or loss, which will be long-term or short-term, generally depending upon the shareholder's holding period for the shares. Any loss realized upon a disposition of Fund shares held for six months or less will be treated as a long-term capital loss to the extent of any distributions of net capital gain made with respect to those shares. Any loss realized on a sale or exchange will be disallowed to the extent the shares disposed of are replaced (including replacement with shares acquired pursuant to a dividend reinvestment plan) within a period of 61 days beginning 30 days before and ending 30 days after disposition of the shares. In such a case, the basis of the shares acquired will be adjusted to reflect the disallowed loss.

An investment in zero coupon securities, deferred interest securities, payment-in-kind securities, certain stripped securities, and certain securities purchased at a market discount may cause the Fund to recognize income prior to the receipt of cash payments with respect to those securities. In order to distribute this income and avoid a tax on the Fund,

the Fund may be required to liquidate portfolio securities that it might have otherwise continued to hold, potentially resulting in additional taxable gain or loss to the Fund.

The Fund may invest in foreign entities that may be treated as PFICs for U.S. federal income tax purposes. If the Fund does invest in PFICs, it may be required to pay additional tax (and interest) in respect of distributions from, and gains attributable to the sale or other disposition of the stock of, such entities. If the Fund is eligible to make and makes either a "qualified electing fund" election or a "mark to market" election with respect to an investment in a PFIC, then the Fund may have taxable income from such investment regardless of whether or not the Fund receives any actual distributions of cash from such PFIC in any given year. In order to distribute this income and avoid a tax on the Fund, the Fund may be required to liquidate portfolio securities that it might have otherwise continued to hold, potentially resulting in additional taxable gain or loss to the Fund.

Investment income received by the Fund and gains with respect to foreign securities may be subject to foreign taxes, a portion of which may be recoverable, including foreign taxes withheld at the source. The United States has entered into tax treaties with many foreign countries that may entitle the Fund to a reduced rate of tax or an exemption from tax on such income; the Fund intends to qualify for treaty reduced rates where available.

Dividends paid by the Fund that are derived from interest on obligations of the U.S. Government and certain of its agencies and instrumentalities (but generally not distributions of capital gains realized upon the disposition of such obligations) may be exempt from certain state and local income taxes. The Fund generally intends to advise shareholders of the extent, if any, to which its dividends consist of interest that may be eligible for such an exemption.

Dividends and certain other payments (but not distributions of net capital gain) to persons who are neither citizens nor residents of the United States or U.S. entities ("non-U.S. persons") are generally subject to U.S. federal income tax withholding at the rate of 30%. The Fund intends to withhold at that rate on taxable dividends and such other payments to non-U.S. persons that are subject to such withholding. The 30% withholding tax generally will not apply to distributions from the excess of net long-term capital gains over net short-term capital losses or to redemption proceeds. For taxable years of the Fund beginning on or before December 31, 2011, this 30% withholding tax will not apply to dividends that the Fund reports as (a) interest-related dividends to the extent derived from the Fund's "qualified net interest income," or (b) short-term capital gain dividends, to the extent such dividends are derived from the Fund's "qualified short-term gain." "Qualified net interest income" is the Fund's net income derived from U.S.-source interest and original issue discount, subject to certain exceptions and limitations. "Qualified short-term gain" generally means the excess of the net short-term capital gain of the Fund for the taxable year over its net long-term capital loss, if any. The Fund may withhold at a lower rate permitted by an applicable treaty if the shareholder provides the documentation required by the Fund. Any amounts overwithheld may be recovered by such persons by filing a claim for refund with the U.S. Internal Revenue Service within the time period appropriate to such claims. Fund distributions received by non-U.S. persons also may be subject to tax under the laws of their own jurisdictions.

The Fund may be required to apply special withholding rules to distributions to certain non-U.S. persons to the extent such distributions are attributable to gain from sales of "United States real property interests" held directly or indirectly by the Fund. Those rules, if applicable, require withholding at the rate of 35% of such a distribution otherwise payable to a non-U.S. individual or corporation that held more than 5% of the Fund's shares at any time during the one-year period ending on the date of the distribution. A distribution that is subject to 35% withholding will not also be subject to the 30% withholding tax described in the preceding paragraph. Distributions subject to 35% withholding will be treated as income effectively connected with a trade or business within the United States, and a non-U.S. person receiving such a distribution generally will be required to file a U.S. federal income tax return for the period in which such distribution is received.

Distributions and redemption payments paid after December 31, 2012 to a shareholder that is a "foreign financial institution" as defined in Section 1471 of the Code and that does not meet the requirements imposed on foreign financial institutions by Section 1471 will generally be subject to withholding tax at a 30% rate notwithstanding the status of any such amounts as capital gain dividends, short-term capital gain dividends or interest-related dividends. Distributions and redemption payments paid after December 31, 2012 to a non-U.S. shareholder that is not a foreign financial institution will generally be subject to such withholding tax if the shareholder fails to make certain required certifications. The extent, if any, to which such withholding tax may be reduced or eliminated by an applicable tax treaty is unclear.

A shareholder will be subject to backup withholding on distributions, redemptions and certain other payments unless such shareholder (a) is a corporation or comes within certain other exempt categories and, when required, demonstrates this fact, or (b) provides a taxpayer identification number, certifies that the shareholder is not subject to backup withholding, and otherwise complies with applicable requirements of the backup withholding rules. A shareholder who does not provide the Fund with his correct taxpayer identification number may also be subject to penalties imposed by the IRS. Any amount paid as backup withholding will be creditable against the shareholder's income tax liability so long as a return is timely filed. Backup withholding will not be applied to payments that have been subject to the 30% withholding tax on shareholders who are non-U.S. persons. The backup withholding rate is currently 28% and is scheduled to increase to 31% in 2013.

As required by federal law, detailed federal tax information is furnished to each shareholder for each calendar year on or before January 31 of the succeeding year. The Fund generally intends to request an extension from the IRS each year. If approved by the IRS, detailed federal tax information will be furnished to each shareholder by the end of February of the succeeding year. CGM Shareholder Services, the shareholder servicing agent, will send you and the Internal Revenue Service an annual statement detailing federal tax information, including information about dividends and distributions paid to you during the preceding year. If you redeem or exchange shares in any year, following the end of a year, you may also receive a statement providing the cost basis and gain or loss of each share lot that you sold in each year. Your CGM account cost basis will be calculated using the "single category average cost method," which is one of the four calculation methods

allowed by the IRS. You are not required to use this method. You may calculate your cost basis using another method allowed by the IRS.

Be sure to keep the statements you receive from the Fund as permanent records. A fee may be charged for any duplicate information that you request.

Investors should consult their tax advisors regarding the application of the above-described general federal taxation rules to their own circumstances and the state, local, or foreign tax consequences to them of any investment in the Fund.

PROXY VOTING GUIDELINES AND PROCEDURES

The Board of Trustees has approved delegating proxy voting discretion to CGM. CGM's detailed proxy voting guidelines and procedures are attached as Appendix B to this SAI. Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available free of charge, upon request, by calling 800-345-4048, and on the SEC's website at www.sec.gov.

FINANCIAL STATEMENTS

The financial statements for the year ended December 31, 2010, included in the Fund's Annual Report to Shareholders for the year ended December 31, 2010, are incorporated herein by reference.

APPENDIX A RATINGS

Description of Moody's Investors Service, Inc.'s Long-Term Obligation Ratings:

Moody's long-term obligation ratings are opinions of the relative credit risk of fixed-income obligations with an original maturity of one year or more. They address the possibility that a financial obligation will not be honored as promised. Such ratings reflect both the likelihood of default and any financial loss suffered in the event of default.

Aaa—Obligations rated Aaa are judged to be of the highest quality, with minimal credit risk.

Aa—Obligations rated Aa are judged to be of high quality and are subject to very low credit risk.

A—Obligations rated A are considered upper-medium grade and are subject to low credit risk.

Baa—Obligations rated Baa are subject to moderate credit risk. They are considered medium-grade and as such may possess certain speculative characteristics.

Ba—Obligations rated Ba are judged to have speculative elements and are subject to substantial credit risk.

B—Obligations rated B are considered speculative and are subject to high credit risk.

Caa—Obligations rated Caa are judged to be of poor standing and are subject to very high credit risk.

Ca—Obligations rated Ca are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.

C—Obligations rated C are the lowest rated class of bonds and are typically in default, with little prospect for recovery of principal or interest.

Note: Moody's appends numerical modifiers "1", "2" and "3" to each generic rating classification from "Aa" through "Caa." The modifier "1" indicates that the obligation ranks in the higher end of its generic rating category; the modifier "2" indicates a mid-range ranking; and the modifier "3" indicates a ranking in the lower end of that generic rating category.

Description of Standard & Poor's Ratings Group's Long-Term Issue Credit Ratings:

Issue credit ratings are based, in varying degrees, on the following considerations: (1) likelihood of payment—capacity and willingness of the obligor to meet its financial commitment on an obligation in accordance with the terms of the obligation; (2) nature of and provisions of the obligation; and (3) protection afforded by, and relative position of, the obligation in the event of bankruptcy, reorganization, or other arrangement under the laws of bankruptcy and other laws affecting creditors' rights.

Issue ratings are an assessment of default risk, but may incorporate an assessment of relative seniority or ultimate recovery in the event of default. Junior obligations are typically rated lower than senior obligations, to reflect the lower priority in bankruptcy, as

noted above. (Such differentiation may apply when an entity has both senior and subordinated obligations, secured and unsecured obligations, or operating company and holding company obligations.)

AAA—An obligation rated 'AAA' has the highest rating assigned by Standard & Poor's. The obligor's capacity to meet its financial commitment on the obligation is extremely strong.

AA—An obligation rated 'AA' differs from the highest-rated obligations only to a small degree. The obligor's capacity to meet its financial commitment on the obligation is very strong.

A—An obligation rated "A" is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong.

BBB—An obligation rated 'BBB' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

BB, B, CCC, CC, and C—Obligations rated 'BB', 'B', 'CCC', 'CC', and 'C' are regarded as having significant speculative characteristics. 'BB' indicates the least degree of speculation and 'C' the highest. While such obligations will likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major exposures to adverse conditions.

BB—An obligation rated 'BB' is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions which could lead to the obligor's inadequate capacity to meet its financial commitment on the obligation.

B—An obligation rated 'B' is more vulnerable to nonpayment than obligations rated 'BB', but the obligor currently has the capacity to meet its financial commitment on the obligation. Adverse business, financial, or economic conditions will likely impair the obligor's capacity or willingness to meet its financial commitment on the obligation.

CCC—An obligation rated 'CCC' is currently vulnerable to nonpayment, and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitment on the obligation. In the event of adverse business, financial, or economic conditions, the obligor is not likely to have the capacity to meet its financial commitment on the obligation.

CC—An obligation rated 'CC' is currently highly vulnerable to nonpayment.

C— A 'C' rating is assigned to obligations that are currently highly vulnerable to nonpayment, obligations that have payment arrearages allowed by the terms of the documents, or obligations of an issuer that is the subject of a bankruptcy petition or similar action which have not experienced a payment default. Among others, the 'C' rating may be assigned to subordinated debt, preferred stock or other obligations on which cash payments have been suspended in accordance with the instrument's terms or when

preferred stock is the subject of a distressed exchange offer, whereby some or all of the issue is either repurchased for an amount of cash or replaced by other instruments having a total value that is less than par.

D—An obligation rated 'D' is in payment default. The 'D' rating category is used when payments on an obligation are not made on the date due even if the applicable grace period has not expired, unless Standard & Poor's believes that such payments will be made during such grace period. The 'D' rating also will be used upon the filing of a bankruptcy petition or the taking of a similar action if payments on an obligation are jeopardized. An obligation's rating is lowered to 'D' upon completion of a distressed exchange offer, whereby some or all of the issue is either repurchased for an amount of cash or replaced by other instruments having a total value that is less than par.

Plus (+) or Minus (–): The ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (–) sign to show relative standing within the major rating categories.

N.R.: This indicates that no rating has been requested, that there is insufficient information on which to base a rating, or that Standard & Poor's does not rate a particular obligation as a matter of policy.

Active Qualifiers (Currently applied and/or outstanding)

i: This subscript is used for issues in which the credit factors, terms, or both, that determine the likelihood of receipt of payment of interest are different from the credit factors, terms or both that determine the likelihood of receipt of principal on the obligation. The 'i' subscript indicates that the rating addresses the interest portion of the obligation only. The 'i' subscript will always be used in conjunction with the 'p' subscript, which addresses likelihood of receipt of principal. For example, a rated obligation could be assigned ratings of "AAAp NRi" indicating that the principal portion is rated "AAA" and the interest portion of the obligation is not rated.

L: Ratings qualified with 'L' apply only to amounts invested up to federal deposit insurance limits.

p: This subscript is used for issues in which the credit factors, the terms, or both, that determine the likelihood of receipt of payment of principal are different from the credit factors, terms or both that determine the likelihood of receipt of interest on the obligation. The 'p' subscript indicates that the rating addresses the principal portion of the obligation only. The 'p' subscript will always be used in conjunction with the 'i' subscript, which addresses likelihood of receipt of interest. For example, a rated obligation could be assigned ratings of "AAAp NRi" indicating that the principal portion is rated "AAA" and the interest portion of the obligation is not rated.

pi: Ratings with a 'pi' subscript are based on an analysis of an issuer's published financial information, as well as additional information in the public domain. They do not, however, reflect in-depth meetings with an issuer's management and are therefore based on less comprehensive information than ratings without a 'pi' subscript. Ratings with a 'pi' subscript are reviewed annually based on a new year's financial statements, but may be reviewed on an interim basis if a major event occurs that may affect the issuer's credit quality.

preliminary: Preliminary ratings, with the 'prelim' qualifier, may be assigned to obligors or obligations, including financial programs, in the circumstances described below. Assignment of a final rating is conditional on the receipt by Standard & Poor's of appropriate documentation. Standard & Poor's reserves the right not to issue a final rating. Moreover, if a final rating is issued, it may differ from the preliminary rating. (1) Preliminary ratings may be assigned to obligations, most commonly structured and project finance issues, pending receipt of final documentation and legal opinions. (2) Preliminary ratings are assigned to Rule 415 Shelf Registrations. As specific issues, with defined terms, are offered from the master registration, a final rating may be assigned to them in accordance with Standard & Poor's policies. (3) Preliminary ratings may be assigned to obligations that will likely be issued upon the obligor's emergence from bankruptcy or similar reorganization, based on late-stage reorganization plans, documentation and discussions with the obligor. Preliminary ratings may also be assigned to the obligors. These ratings consider the anticipated general credit quality of the reorganized or post-bankruptcy issuer as well as attributes of the anticipated obligation(s). (4) Preliminary ratings may be assigned to entities that are being formed or that are in the process of being independently established when, in Standard & Poor's opinion, documentation is close to final. Preliminary ratings may also be assigned to these entities' obligations. (5) Preliminary ratings may be assigned when a previously unrated entity is undergoing a well-formulated restructuring, recapitalization, significant financing or other transformative event, generally at the point that investor or lender commitments are invited. The preliminary rating may be assigned to the entity and to its proposed obligation(s). These preliminary ratings consider the anticipated general credit quality of the obligor, as well as attributes of the anticipated obligation(s), assuming successful completion of the transformative event. Should the transformative event not occur, Standard & Poor's would likely withdraw these preliminary ratings. (6) A preliminary recovery rating may be assigned to an obligation that has a preliminary issue credit rating.

sf: The 'sf' subscript is assigned to all issues and issuers to which a regulation, such as the European Union Regulation on Credit Rating Agencies, requires the assignment of an additional symbol which distinguishes a structured finance instrument or obligor (as defined in the regulation) from any other instrument or obligor. The addition of this subscript to a credit rating does not change the definition of that rating or our opinion about the issue's or issuer's creditworthiness.

t: The 't' symbol indicates termination structures that are designed to honor their contracts to full maturity or, should certain events occur, to terminate and cash settle all their contracts before their final maturity date.

unsolicited: Unsolicited ratings are those credit ratings assigned at the initiative of Standard & Poor's and not at the request of the issuer or its agents.

APPENDIX B
CAPITAL GROWTH MANAGEMENT
Proxy Voting Policies and Procedures

The following policies and procedures apply in voting proxies on behalf of accounts for which Capital Growth Management Limited Partnership (“CGM”) has voting authority.

1. CGM’s policy is to vote – not abstain from voting – on all issues presented on portfolio securities held for our advisory clients.
2. All issues presented for securityholder vote are considered from an investment point of view and voted in the best investment interests of the beneficial owners of the account holding the securities that are being voted, with the goal of maximizing the long-term value of the account.
3. CGM recognizes that votes it casts on behalf of certain types of accounts, such as accounts subject to the U.S. Employee Retirement Income Security Act of 1974, as amended (“ERISA”), and accounts of public entities or pension plans, may be subject to special requirements under governing account or plan documents and applicable law. Paragraph 13 below addresses the special requirements applicable to accounts subject to ERISA. To the extent any provisions of these policies and procedures are not consistent with paragraph 13, those provisions shall not apply to votes cast on behalf of accounts subject to ERISA. Accounts managed by CGM for employee benefit plans which are not governed by ERISA (such as governmental pension plans) may nevertheless involve fiduciary obligations similar to those applicable to ERISA plans; proxy voting requirements for such accounts are addressed on a case by case basis.
4. Proxies generally are voted by the investment manager responsible for the account holding the securities to be voted (the “manager”), under the supervision of the CGM Proxy Committee (the “Proxy Committee”). The Proxy Committee shall consist of Robert L. Kemp, Ken Heebner and Catherine Columb, and such other members who may be appointed by Ken Heebner from time to time. The Proxy Committee is responsible for reviewing these policies and procedures on at least an annual basis and making any necessary or desirable changes hereto. Managers may, but subject to paragraphs 7, 8, 9 and 13 are not required to, consult with the Proxy Committee on how to vote particular proxies. Managers are required to follow any definitive determination by the Proxy Committee to vote a proxy in a particular manner.
5. Where CGM has been directed to vote in a particular manner by a client, pursuant to a contractual obligation with that client or a specific direction from the client as to a particular proxy vote, the applicable manager will vote the proxy in the manner directed by the client, subject to any contrary determination by the Proxy Committee. The provisions of this paragraph 5

shall not apply to client voting instructions in relation to accounts subject to ERISA, policies for which are stated in paragraph 13 below.

6. Generally, proxies covering routine matters are voted in favor of management proposals, subject, in each case, to the duty to act solely in the best interest of the beneficial owners of accounts holding the securities that are being voted.
7. Proxy items involving non-routine issues generally will be voted as recommended by management, but will be voted against management if the manager responsible for voting the proxy believes that the management recommendation is not in the best interest of the beneficial owners of accounts holding the securities that are being voted.

It is CGM policy to generally vote against: extreme anti-takeover measures. Extreme measures include, but are not limited to establishing a separate class of voting shares; shareholder proposals regarding the exercise of poison pills without stockholder approval; stock option plans that would cause excessive dilution (dilution of 10% or more is unacceptable); and an increase in authorized shares which dilute the interests of present shareholders, subject, in each case, to the duty to act solely in the best interest of the beneficial owners of accounts holding the securities that are being voted.

The voting policies contained in this paragraph 7 may be superseded where the relevant manager, with the approval of the Proxy Committee, determines that doing so is in the best interest of the beneficial owners of the relevant accounts.

8. If a manager determines that a proposal deserves special attention, it will be discussed with the Proxy Committee.
9. All employees of CGM are under a duty to report to the Proxy Committee any potential conflict of interest of which they become aware regarding voting proxies for client accounts. Employees will be periodically notified of this duty.
10. The Proxy Committee shall consider all potential conflicts of interest brought to its attention pursuant to paragraph 9 hereof or otherwise coming to its attention, and will determine whether there exists a material conflict of interest with respect to the proxies in question. A conflict of interest will be considered material to the extent that it is determined that such conflict has the potential to influence CGM's decision-making in voting the proxy. Where it is deemed that a material conflict of interest does not exist, the relevant manager may vote such proxy, subject to the duty to act solely in the best interest of the beneficial owners of accounts holding the securities that are being voted.

11. Where is it determined by the Proxy Committee that a material conflict of interest does exist, the material conflict shall be disclosed to the applicable client and their consent shall be solicited on whether the proxy may be voted in the manner recommended by CGM. If the client does consent, then the proxy shall be voted in such a manner. If the client does not consent, the proxy shall (i) be voted in the manner directed by the client, or, lacking such direction, (ii) not be voted. The provisions of this paragraph 11 shall not apply to conflicts of interest in relation to accounts subject to ERISA, policies for which are stated in paragraph 13 below.
12. CGM shall maintain, in an easily accessible place for a period of not less than five years from the end of the fiscal year during which the last entry was made on such record, the first two years in an appropriate office of CGM: (i) a copy of these proxy voting policies and procedures, (ii) proxy statements received regarding client securities, (iii) records of votes cast on behalf of clients, (iv) records of client requests for proxy voting information, and (v) any documents created by CGM that were material to making a decision how to vote, or that memorialized the basis for the decision. CGM may rely on proxy statements filed on the Securities and Exchange Commission's EDGAR system instead of keeping its own copies, and may rely on proxy statements and records of proxy votes cast by CGM that are maintained with a third party, such as a proxy voting service, provided that CGM has obtained an undertaking from the third party to provide a copy of the documents promptly upon request.

With respect to proxies voted on behalf of ERISA accounts, CGM shall maintain records with respect to these policies and procedures and the actions taken in individual proxy voting situations, in order to enable the named fiduciary of the applicable plan to determine whether CGM is adhering to applicable proxy voting policies and fulfilling its fiduciary duties to the plan in a manner which justifies the continuation of the advisory appointment. These records may include information regarding (i) the issuer and the meeting, (ii) the issues voted on and a record of the vote, (iii) the number of securities eligible to be voted on the record date on behalf of the client, (iv) the number of securities voted by CGM on behalf of the client, (v) the steps taken to ascertain whether a particular vote was prudent and in the interest of the participants and beneficiaries, and (vi) the reasons for the votes cast.

13. The following special proxy voting policies apply to the voting of proxies on behalf of accounts subject to ERISA. Except where expressly noted, the following policies apply in addition to and not in lieu of the provisions stated in other sections of these policies and procedures.

Authority to Vote Proxies. Upon receipt of a request for a proxy vote for an account subject to ERISA, the applicable manager shall ascertain whether it has the duty to vote the proxies or whether this duty has been retained by the trustee or another named fiduciary of the ERISA plan. The determination shall be made by reference to the advisory agreement and plan documents

and, where necessary, after consultation with the Proxy Committee. Where general authority to manage ERISA plan assets has been delegated to CGM, CGM will have the authority and duty to vote the proxies unless the advisory agreement and plan documents expressly preclude CGM from voting proxies.

Voting Guidelines. CGM will vote proxies for accounts governed by ERISA (i) solely in the interests of the plan participants and beneficiaries, (ii) for the exclusive purpose of providing benefits to participants and beneficiaries, (iii) with the care, skill and diligence that a prudent man acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims, and (iv) in accordance with the plan documents to the extent consistent with ERISA. In doing so, CGM must consider the factors that may affect the value of the plan's investment and not subordinate the interests of the participants and beneficiaries in their retirement income to unrelated objectives (such as the wishes of the plan sponsor).

Proxy Voting Policies. The applicable manager shall ascertain if the ERISA plan has a proxy voting policy or an investment policy which includes a proxy voting policy. CGM shall follow the policy unless, in the opinion of the Proxy Committee, to do so would be inconsistent with ERISA (if, for example, it would be imprudent or not solely in the interests of the plan participants and beneficiaries in a given instance). Where CGM has proxy voting authority for a pooled investment vehicle which is subject to ERISA, CGM may be subject to the proxy voting policies of more than one plan. In such cases, CGM will seek to reconcile the policies if possible. If the investment policies conflict, it may be necessary for CGM to vote the proxies of the pooled investment vehicle in proportion to each plan's respective investment, unless, in the opinion of the Proxy Committee, to do so would be imprudent or conflict with ERISA.

Conflicts of Interest. Where the Proxy Committee determines that a material conflict of interest exists regarding proxy votes for ERISA accounts the material conflict shall be disclosed to the named fiduciary of the plan. In the case of a conflict of interest affecting CGM as fiduciary of an ERISA account, mere disclosure of the conflict to the ERISA account client and/or consent by the client to the proxy vote proposed by CGM will generally be insufficient to resolve the conflict in accordance with ERISA. Consequently, CGM, together with the named fiduciary, must determine the procedure for resolution of the conflict of interest consistent with the advisory agreement, the plan documents and ERISA. Depending upon the circumstances, the conflict may be resolved by voting the proxies (i) in accordance with the ERISA plan's pre-determined proxy voting policy, (ii) based upon the recommendations of an independent third party (for example, a proxy voting service) appointed by the named fiduciary, (iii) based upon the recommendations of an independent plan fiduciary, or (iv) based upon the directions of the named fiduciary, accompanied, where necessary, by

appropriate amendment(s) of the plan documents and/or the advisory agreement.

14. CGM shall periodically report to the Trustees of CGM Trust as to actions taken in accordance with these policies and procedures.
15. CGM will provide clients with a copy of these policies and procedures promptly upon request.
